Independent Auditor's Report

Board of Trustees Edmonds College Lynnwood, Washington

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and the aggregate discretely presented component unit of Edmonds College (the College), a component unit of the State of Washington, as of and for the year June 30, 2022, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component unit of the College as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Edmonds College Foundation (the Foundation) which represent 100 percent of the assets, net position, and revenues of the aggregate discretely presented component unit. The Foundation's financial statements, which were prepared in accordance with accounting standards as issued by the Financial Accounting Standards Board, were audited by other auditors, whose report thereon has been furnished to us, and our opinion, insofar as it related to the amounts included for the Foundation, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1, the financial statements of the College, a component unit of the State of Washington, are intended to present the financial position, and the changes in the financial position, and where applicable, cash flows of only the respective portion of the activities of the State of Washington that is attributable to the transactions of the College and its aggregate discretely presented component unit. They do not purport to, and do not, present fairly the financial position of the State of Washington as of June 30, 2022, the changes in its

financial position, and where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As described further in Note 1 to the financial statements, during the year ended June 30, 2022, the College implemented Governmental Accounting Standards Board (GASB) Statement No. 87. Our opinion is not modified with respect to this matter.

The financial statements for the year ended June 30, 2022, reflect certain prior period adjustments as described further in Note 18 to the financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The College's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of

expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other post-employment benefit schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the Financial Statements. The other information comprises the *Trustees and Administrative Officers* but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2024 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Edmonds College

The following discussion and analysis provides an overview of the financial position and activities of Edmonds College (the College) for the fiscal year (FY) ended June 30, 2022 (FY 2022).

This overview provides readers with an objective and easily readable analysis of the College's financial performance for the year, based on currently known facts and conditions. This discussion has been prepared by management and should be read in conjunction with the College's financial statements and accompanying note disclosures.

Reporting Entity

Edmonds College is one of thirty public community and technical college districts in the state of Washington, providing a wide range of comprehensive offerings, including college credit in high school, basic education skills to receive a high school diploma/GED® or to prepare for college, short-term noncredit training, continuing education, online degrees and certificates to approximately 13,000 students annually, including approximately 800 international students from about 57 countries. Edmonds' program offerings include four bachelor of applied science degrees (with approval to offer one more in 2024), 65 associate degrees, and 109 professional certificates in 30 programs of study. The College was established in 1967 and its mission is: "Teaching | Learning | Community." Guided by innovation, equity, inclusion, and a global perspective, the College is committed to academic excellence, student success, and community engagement.

The College's main campus is located in Lynnwood, Washington, serving the growing community's residents in Edmonds, Lynnwood, Mountlake Terrace, Brier, Mill Creek, Mukilteo, and Woodway. The College also has operations at the Monroe Correctional Complex in Monroe, Washington, the Advanced Manufacturing Skills Center and Washington Aerospace Training & Research Center in Everett, Washington, and eight Head Start facilities throughout Snohomish County.

The College is governed by a six-member Board of Trustees appointed by the Governor with the consent of the state Senate, including a student trustee who has full voting rights with the exception of matters related to personnel or collective bargaining. By statute, the Board of Trustees has full control of the College, except as otherwise provided by law.

Using the Financial Statements

The financial statements presented in this report encompass the College and its discretely presented component unit, the Edmonds College Foundation. The College's financial statements include the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows. A copy of the Foundation's separately issued financial statements may be obtained from the Foundation's Administrative Offices at 425-640-1274 and/or emailing foundation@edmonds.edu.

The Statement of Net Position provides information about the College at a moment in time, at year-end. The Statement of Revenue, Expenses, and Changes in Net Position and the Statement of Cash Flows provide information about operations and activities over the entire fiscal year. Together, these statements, along with the accompanying notes, provide a comprehensive way to assess the College's financial health.

The Statement of Net Position and Statement of Revenues, Expenses, and Changes in Net Position are reported under the accrual basis of accounting where all of the current year's revenues and expenses are taken into account, regardless of when cash is received or payments are made. Full accrual statements are intended to provide a view of the College's financial position similar to that presented by most private-sector companies. These financial statements are prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), which establishes standards for external financial reporting for public colleges and universities. The full scope of the College's activities is considered to be a single business-type activity and accordingly, is reported within a single column in the basic financial statements.

Statement of Net Position

The statement of net position provides information about the College's financial position, and presents the College's assets, liabilities, and net assets at year-end and includes all assets and liabilities. A condensed comparison of the statement of net position is as follows:

Condensed Statement of Net Position As of June 30th	2022	2021 - Restated*	Change
Assets Current assets Capital assets, net Other assets, noncurrent	\$ 31,646,839 141,249,408 21,768,007	\$ 32,209,131 147,498,066 15,730,852	\$ (562,292) (6,248,658) 6,037,155
Total Assets	194,664,254	195,438,049	(773,795)
Deferred Outflows	8,254,615	8,283,365	(28,750)
Liabilities Current liabilities Other liabilities, noncurrent Total Liabilities	14,345,112 53,783,082 68,128,194	12,892,711 67,255,246 80,147,957	1,452,401 (13,472,164) (12,019,763)
Deferred Inflows	29,905,186	19,048,379	10,856,807
Net Position Net investment in capital assets Restricted for institutional financial aid fund Restricted for pension plan assets Unrestricted (deficit)	116,986,977 172,343 2,520,818 (14,794,649) \$ 104,885,489	120,037,552 186,568 - (15,699,042) \$ 104,525,078	(3,050,575) (14,225) 2,520,818 904,393 \$ 360,411

^{*}Restated for GASB 87, Leases, implementation in 2022 (Note 2 and 11) and prior period errors in 2021 (Note 18)

Current assets consist primarily of cash, short term investments, and various accounts receivables. The decrease of current assets of \$562,292 in FY 2022 is primarily attributable to write-offs of stale accounts receivable offset by a shift in investment classification from long term to short term.

Net capital assets decreased by \$6,248,658 from fiscal year 2021 to FY 2022, mostly due to depreciation of long-lived assets.

Noncurrent assets consist of the long-term portion of certain investments and pension assets. Edmonds has investments in municipal bonds and government securities and fluctuate between long-term and short-term to secure higher rate of return when purchased.

Deferred outflows (and the related deferred inflow) as of June 30, 2022, represent changes in deferred contributions and changes of assumptions related to the College's pension, Post-Employment Benefits Other Than Pensions (OPEB), and State Board Retirement Plan. See footnotes 1, 12, and 13 for discussion of these items and the pension and OPEB liability referred to below.

Current liabilities include amounts payable to suppliers for goods and services, accrued payroll and related liabilities, the current portion of the Certificate of Participation (COP) debt, and unearned revenue. Current liabilities can fluctuate from year to year depending on the timeliness of vendor invoices and resulting vendor payments, especially in the area of capital assets and improvements. The increase is mostly the result of the current portion of the OPEB liability.

Noncurrent liabilities primarily consist of the value of vacation and sick leave earned but not yet used by employees, the long-term portion of Certificates of Participation debt, and the long-term portion of lease liabilities. This category also includes the required long-term OPEB liability, and pension liability. The decrease in noncurrent liabilities was primarily due to the pension liability, net of current portion, which decreased \$12.6 million over the prior year to a pension asset. This decrease was driven by a \$10.3 million increase in deferred inflows for the net difference between projected and actual investment earnings on pension plan investments in the PERS 2/3 pension plan and the revaluation of plan assets. See additional details related to required disclosures within Notes 12 and 13.

Net position represents the value of the College's assets and deferred outflows after liabilities and deferred inflows are deducted. Edmonds is required by accounting standards to report its net position in four categories:

Net Investments in Capital Assets – The College's total investment in property, plant, equipment, and infrastructure net of accumulated depreciation and outstanding debt obligations related to those capital assets. Changes in these balances are discussed above.

Restricted Nonexpendable – The corpus of nonexpendable restricted resources is available only for investment purposes. These assets are held in perpetuity. Edmonds did not have any of these funds in 2022.

Restricted Expendable – Subject to external donor or grantor stipulations regarding their use. Edmonds may expend these assets for purposes as determined by donors and/or external entities. The primary restricted expendable funds for the College are for Institutional Financial Aid.

Unrestricted – Includes all other assets not subject to externally imposed restrictions, but which may be designated or obligated for specific purposes by the Board of Trustees or management. Prudent balances are maintained for use as working capital, as a reserve against emergencies and for other purposes, in accordance with policies established by the Board of Trustees. The College maintains a cash balance of at least \$3.2 million as a board-approved reserve for emergencies and other purposes.

Statement of Revenues, Expenses and Changes in Net Position

The statement of revenues, expenses, and changes in net position accounts for the College's changes in total net position during FY 2022. The objective of the statement is to present the revenues received, both operating and nonoperating, and the expenses paid by Edmonds, along with any other revenue, expenses, gains, and losses of Edmonds.

Generally, operating revenues are earned by Edmonds in exchange for providing goods and services. Tuition, grants, and contracts are included in this category. In contrast, nonoperating revenues include monies Edmonds receives from another government without directly giving equal value to that government in return. Accounting standards require that Edmonds categorize state operating appropriations and Pell Grants as nonoperating revenues.

Operating expenses are expenses incurred in the normal operation of Edmonds, including depreciation on property and equipment. When operating revenues, excluding state appropriations and Pell Grants, are measured against operating expenses, Edmonds shows an operating loss. The operating loss is reflective of the external funding necessary to keep tuition lower than the cost of the services provided.

A condensed comparison of the College's revenues, expenses, and changes in net position for the years ended June 30, 2022 and 2021, is presented below.

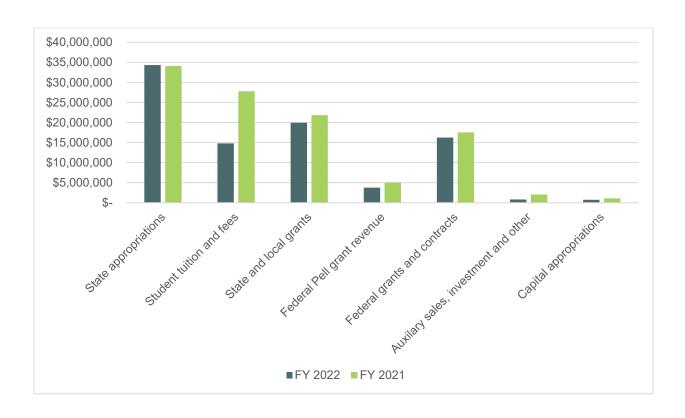

Condensed Statement of Revenue, Expenses, and				
Changes in Net Position	2022	20	21 - Restated*	Change
For the year ended June 30th	 		_	
Operating revenues	\$ 52,589,224	\$	69,209,810	\$ (16,620,586)
Operating expenses	 88,356,051		100,022,054	(11,666,003)
Net Operating Income/Loss	(35,766,827)		(30,812,244)	(4,954,583)
Nonoperating revenues	37,290,099		39,172,042	(1,881,943)
Nonoperating expenses	1,897,853		2,005,723	(107,870)
Income/loss before other revenues and expenses	(374,581)		6,354,075	(6,728,656)
Capital appropriations	 734,992		1,093,318	 (358,326)
Change from revenues and expenses	360,411		7,447,393	(7,086,982)
Cumulative effect of prior period error (Note 18)	 -		2,408,899	 (2,408,899)
Increase in Net Position	\$ 360,411	\$	9,856,292	\$ (9,495,881)

^{*}Prior period error in 2021 (Note 18).

Revenues

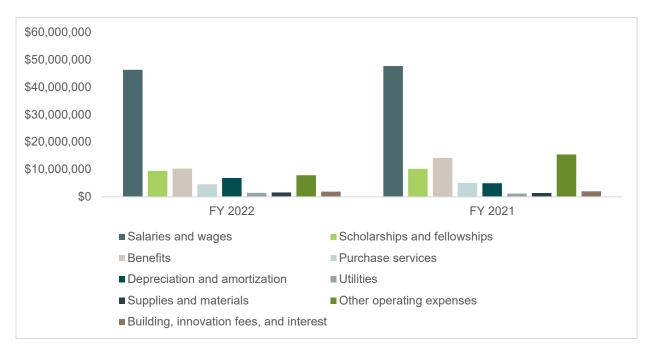

Operating revenues decreased \$16,620,586 in FY 2022, primarily due to a decrease of approximately \$13 million in student tuition and fees. The decrease in student tuition and fees is attributable to a decrease in student enrollment and an increase in scholarship allowances in FY 2022.

Nonoperating revenues decreased by \$1,881,943 in FY 2022, which was primarily due to a decrease of approximately \$1.3 million in Pell Grant revenue.

Expenses

Operating expenses decreased \$11,666,003 in FY 2022, led by a significant decrease of \$7.6 million in other operating expenses primarily attributable to a decrease in non-capitalized asset expenditures and impacts of GASB 87 on rent expenses. Additionally, there was a decrease of \$3.9 million in benefits related to the pension, SBRP, and OPEB plans. There was also a decrease of \$1.4 million in salaries and wages mostly due to significant retirements during FY 2022.

Capital Assets and Long-Term Debt Activities

The community and technical college system submits a single prioritized request to the State of Washington Office of Financial Management and the Legislature for appropriated capital funds, which includes major projects, minor projects, repairs, emergency funds, alternative financing, and major leases. The primary funding source for college capital projects is state general obligation bonds. In recent years, declining state revenues significantly reduced the state's debt capacity and are expected to continue to impact the number of new projects that can be financed.

At June 30, 2022, Edmonds had \$141,249,408 in capital assets, net of accumulated depreciation. This represents a decrease of \$6,248,658 from FY 2021, as shown in the table below. The decrease in capital assets is primarily the result of depreciation and amortization. See Note 4 in the accompanying Notes to the Financial Statements.

	2022	20	21 - Restated*	 Change
Asset Type as of June 30th				
Land	\$ 6,326,372	\$	6,326,372	\$ -

^{*}Restated for GASB 87, Leases, implementation in 2022 (Note 2 and 11) and prior period error (Note 18).

At June 30, 2022, Edmonds had \$24,262,431 in outstanding notes payable, and lease liabilities. Also see Notes 10 and 11.

Debt as of June 30th	2022	202	21 - Restated*	 Change
Certificates of Participation Leases	\$ 3,699,475 20,562,956	\$	4,343,837 23,116,677	\$ (644,362) (2,553,721)
Total Long Term Notes Payable and Leases	\$ 24,262,431	\$	27,460,514	\$ (3,198,083)

^{*}Restated for GASB 87, Leases, implementation in 2022 (Note 2 and 11).

Economic Factors That Will Affect the Future

As the College continues to be affected by the COVID-19 pandemic, a significant decrease in enrollments has been experienced. The College will be looking closely at budgets and operations to improve efficiency and increase enrollment.

Despite COVID-19 related challenges, the College has made significant progress in creating additional opportunities for students. Most notably, the College's first four-year degree program, the Bachelor of Applied Science in Child, Youth, and Family Studies, graduated its fourth cohort in spring quarter of 2022. Four more BAS degrees have received the State Board of Community and Technical College's (SBCTC) approval and began implementation in FY2022. Statewide growth for the additional programs bodes well for future enrollment. The College is very focused on aligning its program offerings with the industry needs.

The College is also positioned to benefit from the Lynnwood Link Extension project being constructed by Sound Transit. As part of a massive expansion of the transit system that will eventually comprise a light rail network spanning 116 miles across Snohomish, King, and Pierce counties, the Lynnwood Link Extension is scheduled to open in 2024 and is projected to serve 50,000 or more riders by 2026. This increase in accessibility could mean additional opportunities for students to live, work, and learn in Lynnwood and beyond. Additionally, the Orange Bus Line, operated by Community Transit, is scheduled to start operating in early 2024 and will connect the college with its service area in the east, especially Mill Creek, which will also help our existing and new students in terms of their transportation needs.

Note 1 – Summary of Significant Accounting Policies

Financial reporting entity – Edmonds College (Edmonds or the College), is a comprehensive community college offering open-door academic programs, workforce education, basic skills, and community services. The College confers applied baccalaureate degrees, associate degrees, certificates, and high school diplomas. It is governed by a six-member Board of Trustees (including one student Trustee), all appointed by the Governor and confirmed by the state Senate. The College is an agency of the State of Washington. The financial activity of the College is included in the state's Comprehensive Annual Financial Report. These notes form an integral part of the financial statements.

Edmonds is an agency of the state of Washington, as part of the community and technical college system, which is directed by the State Board for Community and Technical Colleges. The financial activity of Edmonds is included in the State's Annual Comprehensive Financial Report.

The Edmonds College Foundation (the Foundation) is a separate but affiliated non-profit entity, incorporated under Washington law in 1982 and recognized as a tax exempt 501(c)(3) charity. The Foundation's mission is to support access, success, and excellence for students, faculty, and staff at the College. Visit the Foundation's home page at https://www.edmonds.edu/about-edmonds/foundation/ for more information. Because the majority of the Foundation's income and resources are restricted by donors and may only be used for the benefit of the College or its students, the Foundation is considered a component unit based on the criteria contained in Governmental Accounting Standards Board (GASB) Statement Nos. 14, 39, and 61. A discrete component unit is an entity, which is legally separate from the College, but has the potential to provide significant financial benefits to the College or whose relationship with the College is such that excluding it would cause the College's financial statements to be misleading or incomplete.

The Foundation's financial statements are discretely presented in this report. The Foundation's statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Intra-entity transactions and balances between Edmonds and the Foundation are not eliminated for financial statement presentation. During the fiscal year ended June 30, 2022, the Foundation distributed approximately \$1.1 million to the College for restricted and unrestricted purposes, such as program support and student scholarships. The Foundation statements used in this report have been audited by an independent accounting firm. A copy of the Foundation's complete financial statements may be obtained from the Foundation's Administrative Offices at 425-640-1274 and/or emailing foundation@edmonds.edu.

Basis of presentation – For financial reporting purposes, the College is considered a special-purpose government engaged only in Business Type Activities (BTA). In accordance with BTA reporting, the College presents a Management's Discussion and Analysis; a Statement of Net Position; a Statement of Revenues, Expenses, and Changes in Net Position; a Statement of Cash Flows; and Notes to the Financial Statements. The format provides a comprehensive, entity-wide perspective of the College's assets, deferred outflows, liabilities, deferred inflows, net position, revenues, expenses, changes in net position, and cash flows.

Basis of accounting – The financial statements of the College have been prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows. For the financial statements, intra-agency receivables and payables have generally been eliminated.

Revenue recognition – Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection. Nonexchange transactions in which the College receives (or gives) value without directly giving (or receiving) equal value in exchange includes state and federal appropriations and certain grants and donations.

Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Intercompany transactions – During the course of operations, numerous transactions occur between funds for goods provided and services rendered. For the financial statements, interfund receivables and payables have generally been eliminated. However, revenues and expenses from the College's auxiliary enterprises are treated as though the College dealt with private vendors. For all other funds, expense reimbursement transactions are recorded as reductions of expenses.

Cash, cash equivalents, and investments – Cash and cash equivalents include cash on hand, bank demand deposits, and liquid asset investments. Cash in the investment portfolio is not included in cash and cash equivalents as it is held for investing purposes. Cash and cash equivalents that are held with the intent to fund College operations are classified as current assets. The College records all cash, cash equivalents, and investments at fair value. For the purposes of the Statement of Cash Flows, the College considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents.

The College combines unrestricted cash operating funds from all departments into an internal investment pool, the income from which is distributed annually to contributing funds with the remainder allocated for general operating needs of the College. The internal investment pool is comprised of cash, cash equivalents, Washington State municipal bonds, and U.S. Treasuries, and U.S. Agency securities.

Restricted cash – Restricted cash is restricted to specific purposes by state statute or otherwise. The College's restricted cash is restricted for an institutional financial aid fund as prescribed in the Revised Code of Washington (RCWs) Section 28B.15.820.

Accounts receivable – Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff. This also includes amounts due from federal, state, and local governments or private sources as allowed under the terms of grants and contracts. Accounts receivable are shown net of estimated uncollectible amounts.

Lease receivable – Lease receivable is measured at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received.

Investments – Investments are recorded at fair value. Unrealized gains or losses on the carrying value of investments are reported as a component of net investment income in the statement of revenues, expenses, and changes in net position.

Capital assets – In accordance with state law, capital assets constructed with state funds are owned by the state of Washington. Property titles are shown accordingly. However, responsibility for managing the assets rests with the College. As a result, the assets are included in the financial statements because excluding them would have been misleading.

Land, buildings, and equipment are recorded at cost, or if acquired by gift, at fair market value at the date of the gift. Capital additions, replacements, and major renovations are capitalized. The value of assets constructed includes all material direct and indirect construction costs. Any interest costs incurred are capitalized during the period of construction. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. In accordance with the state capitalization policy all land, intangible assets, and software with a unit cost of \$1,000,000 or more, buildings and improvements with a unit cost of \$100,000 or more, and all other assets with a unit cost of \$5,000 or more are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as defined by the State of Washington's Office of Financial Management. Useful lives range from 15 to 50 years for buildings and improvements, 3 to 50 years for improvements other than buildings, 7 years for library resources, 3 to 7 years for most equipment, and 10 to 40 years for heavy duty equipment.

Edmonds reviews assets for impairment whenever events or changes in circumstances have indicated that the carrying amount of its assets might not be recoverable. Impaired assets are reported at the lower of cost or fair value. For the year ended June 30, 2022, no assets had been written down.

The College recognizes lease liabilities equal to the present value of future payments offset with an intangible right-to-use lease asset. Right-of-use lease assets are recognized at the lease commencement date and represent the College's right to use an underlying asset for the lease term. Right-of-use lease assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to place the lease asset into service. Right-of-use lease assets are amortized over the shorter of the lease term or useful life of the underlying asset using the straight-line method. The amortization period varies from one to eight years.

Unearned revenues – Unearned revenues occur when funds have been collected prior to the end of the fiscal year but related to the subsequent fiscal year, including tuition and fees paid with financial aid funds. The College has recorded summer quarter tuition and fees and advanced grant proceeds as unearned revenues.

Tax exemption – The College is a tax-exempt organization under the provisions of Section 115(1) of the Internal Revenue Code and is exempt from federal income taxes on related income.

Net pension liability (asset) – For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the State of Washington Public Employees' Retirement System (PERS) and the Teachers' Retirement System (TRS), and additions to/deductions from PERS's and TRS's fiduciary net position have been determined on the same basis as they are reported by PERS and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The College also reports its share of the pension liability for the State Board Retirement Plan in accordance with GASB No. 68, *Accounting and Financial Reporting for Pensions and Related Assets*. This is a change in assumptions from prior years.

Post-Employment Benefits Other Than Pensions (OPEB) – For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the College's OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the College's OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments that have a maturity at the time of purchase of one year or less, which are reported at cost.

Deferred outflows of resources and deferred inflows of resources – Deferred outflows of resources represent consumption of net position that is applicable to a future period. Deferred inflows of resources represent acquisition of net position that is applicable to a future period. Changes in net pension liability and net OPEB liability not included in pension expense and OPEB expense are reported as deferred outflows of resources or deferred inflows of resources. Additionally, changes in Employer contributions subsequent to the measurement date of the net pension liability and net OPEB liability are reported as deferred outflows of resources.

Deferred inflows of resources for leases is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue of the life of the lease term.

Net position – The College's net position is classified as follows:

Net Investment in capital assets – This represents the College's total investment in capital assets, net of outstanding debt obligations and lease liabilities related to those capital assets.

Restricted – These represent balances that can be spent for the specific purposes stipulated through legislation.

Unrestricted – These represent resources derived from student tuition and fees, and sales and services of educational departments and auxiliary enterprises.

Classification of revenues and expenses – The College has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues – This includes activities that have the characteristics of exchange transactions such as (1) student tuition and fees, net of waivers and scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, and (3) most federal, state, and local grants and contracts that primarily support the operational/educational activities of the College.

Operating expenses – Operating expenses include salaries, wages, fringe benefits, utilities, supplies and materials, purchased services, and depreciation.

Nonoperating revenues – This includes activities that have the characteristics of nonexchange transactions, such as gifts and contributions, state appropriations, investment income, and grants received from the federal government.

Nonoperating expenses – Nonoperating expenses include state remittance related to the building fee and the innovation fee, along with interest incurred on the certificate of participation loans.

Scholarship discounts and allowances – Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statements of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell Grants, and other Federal, State, or non-governmental programs are recorded as either operating or nonoperating revenues in the College's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded a scholarship discount and allowance. Discounts and allowances for the year ending June 30, 2022 were \$6,956,962.

State appropriations – The state of Washington appropriates funds to the College on both an annual and biennial basis. These revenues are reported as nonoperating revenues on the Statements of Revenues, Expenses, and Changes in Net Position, and recognized as such when the related expenses are incurred.

Building and innovation fee remittance – Tuition collected includes amounts remitted to the Washington State Treasurer's office to be held and appropriated in future years. The Building Fee portion of tuition charged to students is an amount established by the Legislature and is subject to change annually. The fee provides funding for capital construction and projects on a system wide basis using a competitive biennial allocation process. The Building Fee is remitted on the 35th day of each quarter. The Innovation Fee was established in order to fund the SBCTC's Strategic Technology Plan. The use of the fund is to implement new Enterprise Resource Planning software across the entire system. On a monthly basis, the College remits the portion of tuition collected for the Innovation Fee to the State Board for allocation to SBCTC. These remittances are non-exchange transactions reported as an expense in the nonoperating revenues and expenses section of the statement of revenues, expenses, and changes in net position.

Recent adoptions of accounting standards and future changes in accounting principles – GASB Statement No. 87, *Leases*, was implemented in the current year ending June 30, 2022. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. As a result of implementation, the College recorded \$22,773,559 and \$23,116,677 in lease assets, net of amortization, and liabilities, respectively, as an adjustment to 2022 beginning balances. In addition, the College recorded \$791,127 in lease receivable and deferred inflow of resources as an adjustment to 2022 beginning balances. The impact to net position was immaterial and as such, implementation has been recognized in the 2021 ending balances in Management's Discussion and Analysis.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, effective for fiscal year 2023. This Statement requires that public-private and public-public partnerships that meet the definition of a lease apply the guidance in Statement No. 87, *Leases*, as amended, if certain conditions apply. The impact of this Statement has not yet been determined.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for fiscal year 2023. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. The College is following the State's Office of Financial Management directives to prepare for the implementation of this Statement.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, effective for fiscal year 2025. It provides guidance for measuring liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary-related payments that are directly or incrementally associated with payments for leave also should be included in the measurement of the liabilities. The College is following the State's Office of Financial Management directives to prepare for the implementation of this Statement.

Note 2 - Cash and Investments

Cash and cash equivalents include bank demand deposits, petty cash held at the College, inter-agency deposits-in-transit, and liquid asset investments.

As of June 30, 2022, the carrying amount of the College's cash and equivalents was as follows:

Cash and cash equivalents and restricted cash

Petty cash and change funds \$ 10,074
Bank demand \$ 18,341,778

Total cash and cash equivalents and restricted cash \$ 18,351,852

Investments consist of U.S. Treasury and Agency securities, and Washington State municipal bond funds. The College had the following investments and maturities at fair value at June 30, 2022:

	Fair Value		One Year or Less	C	One to Five Years
Investment maturities					
U.S. Treasury obligations	\$ 7,806	,096 \$	684,464	\$	7,121,632
U.S. Agency obligations	3,892	,393	598,517		3,293,876
Washington State municipal bonds	3,385	,985_	1,020,449		2,365,536
Total investments	\$ 15,084	,474 \$	2,303,430	\$	12,781,044

Fair value measurement – The College categorizes its fair value measurements within the fair value hierarchy established by GASB Statement 72. The College does not hold any securities that would be classified as Level 1, quoted in active markets, for fair value. The College's U.S. government treasuries, and U.S. agency obligations, and Washington State municipal bonds are classified in Level 2 of the fair value hierarchy. These securities, as shown above, are valued using a variety of pricing techniques, including but not limited to fundamental analytical data related to the securities, values of baskets of securities, market interest rates, matrix calculated prices, and purchase price. The College does not hold any securities that would be classified as Level 3, significant unobservable inputs, for fair value measurement.

Custodial credit risks, deposits – Custodial credit risk for bank demand deposits is the risk that in the event of a bank failure, the College's deposits may not be returned to it. The majority of the College's demand deposits are with the U.S. Bank. All cash and equivalents, except for change funds and petty cash held by the College, are insured by the Federal Deposit Insurance Corporation or by collateral held by the Washington Public Deposit Protection Commission.

Interest rate risk, investments – The College manages its exposure to fair value losses resulting from changes in interest rates by structuring the entire portfolio time horizon. Unless matched to a specific cash flow, the College generally will not directly invest in securities maturing more than five years from the date of purchase.

Concentration of credit risk, investments – State law limits the College's operating investments to the highest quality sectors of the domestic fixed income market and specifically excludes corporate stocks, corporate and foreign bonds, futures contracts, commodities, real estate, limited partnerships, and negotiable certificates of deposit. The College's policy does not limit the amount the College may invest in any one issuer.

At June 30, 2022 the College held the following reportable investments in the amounts listed:

Investment Type	Issuer	Rep	orted Amount
		_	
US Treasury obligations	U.S. Treasury	\$	7,806,096
US Agency securities	Federal Home Loan MTG Corp	\$	1,879,112
US Agency securities	Federal Farm Credit Bank	\$	1,414,764

Custodial credit risk, investments – Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, Edmonds will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. At June 30, 2022, none of the College's operating fund investments, held by US Bank, were held in the bank's name as agent for the College, therefore none of the investments are exposed to custodial credit risk.

At June 30, 2022 the College had the following investment credit risk:

				Rating		
	 Amount	N	ot Rated	Α	AA	AAA
Investment maturities	<u> </u>					
U.S. Treasury obligations	\$ 7,806,096	\$	-	\$ -	\$ -	\$ 7,806,096
U.S. Agency obligations	3,892,393		-	1,414,764	-	2,477,629
Washington State municipal bonds	 3,385,985		757,064	 1,030,240	 1,598,681	 -
Total investments	\$ 15,084,474	\$	757,064	\$ 2,445,004	\$ 1,598,681	\$ 10,283,725

Note 3 - Accounts Receivable

Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff. It also includes amounts due from federal, state, and local governments or private sources in connection with reimbursements of allowable expenditures made according to sponsored agreements.

At June 30, 2022, accounts receivable were as follows:

		2022
Accounts receivable		
Student tuition and fees	\$	308,609
Due from Federal Government		998,123
Due from State Agencies		5,623,751
Other		3,922,302
Subtotal		10,852,785
Less allowance for uncollectible accounts		(28,522)
Accounts receivable, net	<u> \$ </u>	10,824,263

Note 4 – Capital Assets

A summary of the changes in capital assets for the year ended June 30, 2022, is presented as follows:

Capital assets	Beginning Balance - Restated*	Additions	Transfers	Retirements	Ending Balance
Non-depreciable capital assets	Dalatice - Nestateu	Additions	Hansiers	Retirements	Dalatice
Land	\$ 6,326,372	\$ -	\$ -	\$ -	\$ 6,326,372
Construction in progress	φ 0,320,372	280.803	φ -	Φ -	280,803
Constituction in progress		200,003			200,003
Total non-depreciable capital assets	6,326,372	280,803			6,607,175
Depreciable capital assets					
Buildings	173,246,496	113,416	-	-	173,359,912
Leased asset - buildings	25,096,545	-	-	-	25,096,545
Other improvements and infrastructure	20,068,340	-	-	-	20,068,340
Equipment	9,430,788	235,857	-	-	9,666,645
Library resources	225,526				225,526
Subtotal depreciable capital assets	228,067,695	349,273			228,416,968
Less accumulated depreciation and amortization					
Buildings	60,104,190	3,189,832	_	-	63,294,022
Leased asset - buildings	2,322,986	2,841,806	-	-	5,164,792
Other improvements and infrastructure	16,292,810	315,731	-	-	16,608,541
Equipment	7,983,351	516,607	_	-	8,499,958
Library resources	192,664	14,758			207,422
Total accumulated depreciation					
and amortization	86,896,001	6,878,734			93,774,735
Total depreciable capital assets	141,171,694	(6,529,461)			134,642,233
Capital assets, net of accumulated depreciation					
and amortization	\$ 147,498,066	\$ (6,248,658)	\$ -	\$ -	\$ 141,249,408

^{*}Fiscal Year 2022 Beginning Balance is restated for implementation of GASB 87, Leases, in FY22 Depreciation and amortization expense was \$6,878,734 for the year ended June 30, 2022.

Note 5 - Accounts Payable and Accrued Liabilities

At June 30, 2022, accrued liabilities are the following:

Total	\$ 3,921,816
Amounts owed to others	 699,021
Accounts payable	1,808,566
Amounts owed to employees	\$ 1,414,229

Note 6 – Unearned Revenue

At June 30, 2022, unearned revenue consists of receipts that have not yet met revenue recognition criteria, as follows:

Summer quarter tuition and fees

\$ 2,031,887

Note 7 – Risk Management

The College is exposed to various risks of loss related to tort liability, injuries to employees, errors and omissions, theft of, damage to, and destruction of assets, and natural disasters. The College purchases insurance to mitigate these risks. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks.

The College, in accordance with state policy, pays unemployment claims on a pay-as-you-go basis. The College finances these costs by assessing all funds a monthly payroll expense for unemployment compensation for all employees. Payments made for claims during the fiscal year ending June 30, 2022, were \$334,643. Cash reserves for unemployment compensation for all employees at June 30, 2022, were \$175,135.

The College purchases commercial property insurance through the master property program administered by the Department of Enterprise Services for buildings that were acquired with certificates of participation (COP) proceeds. The policy has a deductible of \$250,000 per occurrence and the policy limit is \$100,000,000 per occurrence. The College has had no claims in excess of the coverage amount within the past three years. The College assumes its potential property losses for most other buildings and contents.

The College participates in a state of Washington risk management self-insurance program, which covers its exposure to tort, general damage, and vehicle claims. Premiums paid to the State are based on actuarially determined projections and include allowances for payments of both outstanding and current liabilities. Coverage is provided up to \$10,000,000 for each claim with no deductible. The College has had no claims in excess of the coverage amount within the past three years.

Note 8 - Compensated Absences

At termination of employment, employees may receive cash payments for all accumulated vacation and compensatory time. Employees who retire get 25% of the value of their accumulated sick leave credited to a Voluntary Employees' Beneficiary Association account, which can be used for future medical expenses and insurance purposes. The amounts of unpaid vacation and compensatory time accumulated by College employees are accrued when earned. The sick leave liability is recorded as an estimate of one-fourth of the total balance on the payroll records. The accrued vacation leave totaled \$1,944,749 and accrued sick leave totaled \$2,508,904 at June 30, 2022.

The current portion of accrued annual and sick leave liabilities is an estimate determined by the average leave taken over the prior three years.

Note 9 - Leases

The College has leases for facilities with various vendors for office space and student housing. During 2022, the College recognized total outflows relating to leases of \$2,841,806. The asset carrying value of these leases was \$25,096,545 and the lease liability was \$20,562,956 as of June 30, 2022. Interest rates were 0.89% for all leases. The future principal and interest payments related to these agreements are as follows:

Year Ending June 30,	Principal	Interest	Total		
2023	\$ 2,702,000	\$ 173,517	\$ 2,875,517		
2024	2,516,582	149,261	2,665,843		
2025	2,414,920	126,915	2,541,835		
2026	2,482,327	105,039	2,587,366		
2027	2,523,498	82,702	2,606,200		
2028 - 2030	7,923,629	\$ 749,588	8,035,783		
Totals	\$ 20,562,956		\$21,312,544		

On January 1, 2018, the College entered into a 10-year lease as Lessor for the use of building space. An initial lease receivable was recorded in the amount of \$347,501. As of June 30, 2022, the value of the lease receivable was \$302,494. The lessee is required to make bi-annual fixed payments of \$24,000. The lease has an interest rate of 0.89%. The value of the deferred inflow of resources as of June 30, 2022 was \$301,167 and the College recognized lease revenue of \$46,333 during the fiscal year. The lessee has three extension options, each for 10 years.

On May 1, 2021, the College entered into a five-year lease as Lessor for the use of land. An initial lease receivable was recorded in the amount of \$228,318. As of June 30, 2022, the value of the lease receivable was \$151,839. The lessee is required to make monthly fixed payments of \$6,500, increasing annually by \$100 per month. The lease has an interest rate of 0.89%. The value of the deferred inflow of resources as of June 30, 2022 was \$150,038 and the College recognized lease revenue of \$78,280 during the fiscal year.

On May 1, 2021, the College entered into a three-year lease as Lessor for the use of building space. An initial lease receivable was recorded in the amount of \$215,308. As of June 30, 2022, the value of the lease receivable was \$172,842. The lessee is required to make monthly fixed payments of \$3,675, increasing annually by \$60 per month. The lease has an interest rate of 0.89%. The value of the deferred inflow of resources as of June 30, 2022 was \$170,762 and the College recognized lease revenue of \$44,547 during the fiscal year.

In fiscal year 2022, the College recognized \$169,160 of lease revenue and \$6,458 of interest revenue under leases.

Note 10 - Notes Payable

In March 2015, the College obtained financing in order to purchase an industrial compactor through COPs, issued by the Washington Office of State Treasurer (OST) in the amount of \$40,888. The COP is secured by the purchased asset. The interest rate charged is 2.20%. The principal and interest obligations related to this payable are being paid out of Edmonds College local funds over a term of 10 years. Interest payments began on December 1, 2015, and are due semiannually on June 1 and December 1 of each year. Principal payments are due June 1, beginning on June 1, 2017. The COP matures June 1, 2025.

In March 2016, the College refinanced the COPs for the purchase of Black Box Theater, issued by the Washington OST in the amount of \$1,700,000. The COP is secured by the financed asset. The interest rate charged is 2.12%. The principal and interest obligations related to this payable are being paid out of Edmonds College local funds over a term of 11 years. Interest payments began on December 1, 2016, and are due semiannually on June 1 and December 1 of each year. Principal payments are due June 1, beginning on June 1, 2017. The COP matures June 1, 2027.

In April 2016, the College refinanced the COPs for the capital improvements of Brier Hall, issued by the Washington OST in the amount of \$5,320,000. The COP is secured by the financed asset. The interest rate charged is 2.12%. The principal and interest obligations related to this payable are being paid out of Edmonds College local funds over a term of 11 years. Interest payments began on December 1, 2016, and are due semiannually on June 1 and December 1 of each year. Principal payments are due June 1, beginning on June 1, 2017. The COP matures June 1, 2027.

The College's debt service requirements for notes payable for the next five years and thereafter are as follows:

Year Ending June 30,	<u></u>	Principal		Interest	Total		
2023 2024 2025 2026	\$	674,586 704,821 735,068 775,000	\$	184,974 151,244 116,003 79,250	\$	859,560 856,065 851,071 854,250	
2027		810,000		40,500		850,500	
Totals	\$	3,699,475	\$	571,971	\$	4,271,446	

Nearly all COP debt service payments are funded by the College's Debt Service Reserve. The exceptions to this are the Brier Hall COP, which is funded by a dedicated fee assessed by the students to pay principal and interest costs, and the industrial compactor, which is funded by the general operating budget.

Note 11 – Schedule of Long-Term Liabilities

Long-term liabilities are as follows for the year ending June 30, 2022:

Description	Beginning Balance - Restated* at June 30, 2021 Additions		Reductions		Balance Outstanding at June 30, 2022		Current Portion		
Compensated absences	\$	4,390,252	\$ 2,780,282	\$	(2,716,881)	\$	4,453,653	\$	2,542,152
Certificates of participation		4,343,837	-		(644,362)		3,699,475		674,586
Leases		23,116,677	-		(2,553,721)		20,562,956		2,702,000
Total pension liability (asset)		7,407,741	1,651,219		(17,502,422)		(8,443,462)		83,620
OPEB liability		33,742,989	2,697,078		(3,065,280)		33,374,787		2,389,051
Total	\$	73,001,496	\$ 7,128,579	\$	(26,482,666)	\$	53,647,409	\$	8,391,409

^{*}Restated for GASB 87, Leases, implementation in 2022.

Note 12 - Pension and Benefit Plans

Pension plans administered by the state are accounted for using the accrual basis of accounting. Under the accrual basis of accounting, employee and employer contributions are recognized in the period in which employee services are performed; investment gains and losses are recognized as incurred; and benefits and refunds are recognized when due and payable in accordance with the terms of the applicable plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of all plans, and additions to/deductions from all plan fiduciary net position have been determined in all material respects on the same basis as they are reported by the plans.

In accordance with GASB Statement No. 68, the College has elected to use the prior fiscal year end as the measurement date for reporting net pension liabilities for the PERS1, PERS 2/3, TRS 1, and TRS 2/3 Plans. The College has elected to use the current fiscal year end as the measurement date for reporting pension liabilities for the Higher Education Supplemental Retirement Plan.

The following table represents the aggregate pension amounts for all plans for the fiscal year ended June 30, 2022:

	Aggregate Pension Amounts All Plans			
Pension assets, net	\$	8,443,462		
Deferred outflows of resources		5,007,307		
Deferred inflows of resources		17,589,237		
Pension expense (revenues)		(5,257,861)		

Substantially all of the College's full-time and qualifying part-time faculty participate in either the Washington State PERS or the TRS. These cost-sharing, multiple-employer defined benefit pension plans are statewide retirement systems administered by the Washington State Department of Retirement Systems (DRS). The State Legislature establishes and amends laws pertaining to the creation and administration of all public retirement systems.

The DRS, a department within the primary government of the state of Washington, issues a publicly available annual comprehensive financial report (ACFR) that includes financial statements and required supplementary information for each plan. The DRS ACFR may be obtained by writing to: Department of Retirement Systems, Communications Unit, P.O. Box 48380, Olympia, WA 98504-8380; or it may be downloaded from the DRS website at www.drs.wa.gov.

PERS and TRS

Plan Descriptions – PERS members include elected officials, state employees, employees of the Supreme, Appeals, and Superior Courts, employees of the legislature, employees of College and municipal courts, employees of local governments, and higher education employees not participating in higher education retirement programs. TRS members include those employed at a certified public school in an instructional, administrative, or supervisory capacity. PERS and TRS is comprised of three separate pension plans for membership purposes. PERS and TRS Plans 1 and 2 are defined benefit plans, and PERS and TRS Plan 3 is a defined benefit plan with a defined contribution component.

Pension Benefits – PERS Plan 1 provides retirement, disability, and death benefits. Retirement benefits are determined as two percent of the member's average final compensation (AFC) times the member's years of service. The AFC is the average of the member's 24 highest consecutive service months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of service, or at age 60 with at least five years of service. Members retiring from active status prior to the age of 65 may receive actuarially reduced benefits. Retirement benefits are actuarially reduced to reflect the choice of a survivor benefit. Other benefits include duty and non-duty disability payments, an optional cost-of-living adjustment (COLA), and a one-time duty-related death benefit, if found eligible by the Washington State Department of Labor and Industries (L&I). PERS 1 members were vested after the completion of five years of eligible service. The Plan was closed to new entrants on September 30, 1977.

PERS Plan 2/3 provides retirement, disability, and death benefits. Retirement benefits are determined as two percent of the member's AFC times the member's years of service for PERS Plan 2, and one percent of AFC times the member's years of service for PERS Plan 3. The AFC is the average of the member's 60 highest-paid consecutive months. There is no cap on years of service credit. Retirement before age 65 is considered an early retirement. PERS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older are eligible for early retirement with a benefit that is reduced by a factor that varies according to age for each year before age 65.

PERS Plan 2/3 retirement benefits are actuarially reduced to reflect the choice of a survivor benefit. Other benefits include duty and non-duty disability payments, a COLA based on the Consumer Price Index (CPI), capped at three percent annually, and a one-time duty-related death benefit, if found eligible by the Washington State L&I. PERS 2 members are vested after completing five years of eligible service. Plan 3 members are vested in the defined benefit portion of their plan after ten years of service, or after five years of service if 12 months of that service are earned after age 44.

PERS Plan 3 defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. Members choose their contribution rate upon joining membership and have a chance to change rates upon changing employers. As established by statute, the required defined contribution rates are set at a minimum of five percent and escalate to 15 percent with a choice of six options. Employers do not contribute to the defined contribution benefits. PERS Plan 3 members are immediately vested in the defined contribution portion of their plan.

TRS Plan 1 provides retirement, disability, and death benefits. Retirement benefits are calculated using two percent of the member's AFC times the member's years of service – up to a maximum of 60 percent. The AFC is the average of the member's 24 highest consecutive service months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of service, or at age 60 with at least five years of service. Other benefits include temporary and permanent disability payments, an optional COLA, and a one-time duty-related death benefit, if found eligible by the Washington State L&I. TRS 1 members are vested after completion of five years of eligible service.

TRS Plan 2/3 provides retirement, disability, and death benefits. Retirement benefits are determined as two percent of the member's AFC times the member's years of service for TRS Plan 2, and one percent of AFC times the member's years of service for TRS Plan 3. The AFC is the average of the member's 60 highest-paid consecutive months. There is no cap on years of service credit. Retirement before age 65 is considered an early retirement. TRS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older, are eligible for early retirement with a benefit that is reduced by a factor that varies according to age for each year before age 65.

TRS Plan 2/3 retirement benefits are actuarially reduced to reflect the choice of a survivor benefit. Other benefits include duty and non-duty disability payments, a COLA based on the CPI, capped at three percent annually, and a one-time duty related death benefit, if found eligible by the Washington State L&I. TRS Plan 2 members are vested after completing five years of eligible service. TRS Plan 3 members are vested in the defined benefit portion of their plan after ten years of service, or after five years of service if 12 months of that service are earned after age 44.

TRS Plan 3 defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. Members choose their contribution rate upon joining membership and have a chance to change rates upon changing employers. As established by statute, required defined contribution rates are set at a minimum of five percent and escalate to 15 percent with a choice of six options. Employers do not contribute to the defined contribution benefits. TRS Plan 3 members are immediately vested in the defined contribution portion of their plan.

Contributions – The College's required contribution rates (expressed as a percentage of covered payroll) for the fiscal year ended June 30, 2022, are as follows:

	College	Employee
PERS		
Plan 1	12.97%	6.00%
Plan 2/3	12.97%	7.90%
TRS		
Plan 1	15.74%	6.00%
Plan 2/3	15.74%	7.77%

PERS Plan 1 and TRS Plan 1-member contribution rates are developed by the Office of the State Actuary (OSA) and includes an administrative expense component that is currently set at 0.18%. Each biennium, the state Pension Funding Council adopts the PERS Plan 1 and TRS Plan 1 contribution rates.

PERS Plan 2/3 and TRS Plan 2/3-member and employer contribution rates are developed by the OSA to fully fund Plan 2 and the defined benefit portion of Plan 3. The PERS Plan 2/3 and TRS Plan 2/3 employer rates include components to address the PERS Plan 1 and TRS Plan 1 unfunded actuarial accrued liability, respectively, and an administrative expense that is currently set at 0.18%. Each biennium, the state Pension Funding Council adopts Plan 2 and Plan 3 employer and employee contribution rates.

Actual contributions to the plans for the FY ended June 30, 2022, are as follows:

	Co	ntributions
PERS		_
Plan 1	\$	552,099
Plan 2/3		928,742
TRS		
Plan 1		79,818
Plan 2/3		102,247

Deferred Outflows and Deferred Inflows of Resources – Deferred outflows on pensions are recorded when projected earnings on pension plan investments exceed actual earnings and are amortized to pension expense using a systematic and rational method over a closed five-year period. Deferred outflows on pensions also include the difference between expected and actual experience with regard to economic or demographic factors; changes of assumptions about future economic, demographic, or other input factors; or changes in the state's proportionate share of net pension liability. These are amortized over the average expected remaining service lives of all employees that are provided with pensions through each pension plan. State contributions to pension plans made subsequent to the measurement date are also deferred and reduce net pension liability in the subsequent year.

Deferred inflows on pensions are recorded when actual earnings on pension plan investments exceed projected earnings and are amortized to pension expense using a systematic and rational method over a closed five-year period. Deferred inflows on pensions also include the difference between expected and actual experience with regard to economic or demographic factors; changes of assumptions about future economic, demographic, or other input factors; or changes in the state's proportionate share of net pension liability. These are amortized over the average expected remaining service lives of all employees that are provided with pensions through each pension plan.

At June 30, 2022, Edmonds reported deferred outflows of resources and deferred inflows of resources related to pensions for its PERS plans from the following sources:

	June 30, 2022									
		PEF	RS 1		PERS 2/3					
		Deferred	D	Deferred		Deferred	Deferred			
	0	utflows of	In	flows of	0	utflows of	Inflows of			
	R	esources	Resources		Resources		Resources			
Difference between expected and										
actual experience	\$ -		\$ -		\$	598,791	\$	151,139		
Net difference between projected and actual investment earnings on pension										
plan investments		-	1	,327,407		-	1	0,303,973		
Changes of assumptions		-		-		18,018		875,548		
Changes in proportion and difference between contributions and proportionate						107.704		050 000		
share of contributions		-		-		167,724		358,838		
Contributions subsequent to the										
measurement date		552,099				928,742				
Total	\$	552,099	\$ 1	,327,407	\$	1,713,275	\$ 1	1,689,498		

The average of the expected remaining service lives of all faculty in PERS 1 and PERS 2/3 that are provided with pensions through Edmonds (active and inactive) is 1.0 year and 6.8 years, respectively.

At June 30, 2022, Edmonds reported deferred outflows of resources and deferred inflows of resources related to pensions for its TRS plans from the following sources:

	June 30, 2022									
		TR	S 1		TRS 2/3					
	D	eferred		Deferred		Deferred		Deferred		
	Ou	tflows of	Ir	nflows of	Outflows of		Ir	nflows of		
	Re	sources	R	esources	Resources		Resources			
Difference between expected and actual experience	\$	-	\$	-	\$	140,197	\$	3,652		
Net difference between projected and actual investment earnings on pension								/		
plan investments		-		165,593		-		526,127		
Changes of assumptions		-		-		28,070		23,715		
Changes in proportion and difference between contributions and proportionate share of contributions		-		-		21,954		21,991		
Contributions subsequent to the measurement date		79,818				102,247				
Total	\$	79,818	\$	165,593	\$	292,468	\$	575,485		

The average of the expected remaining service lives of all faculty in TRS 1 and TRS 2/3 that are provided with pensions through the system (active and inactive) is 1.0 year and 10.0 years, respectively.

Deferred outflows of resources related to pensions resulting from the College's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

	PERS Plan 1	PERS Plan 2/3	TRS Plan 1	TRS Plan 2/3		
2023 2024 2025 2026	\$ (351,630) (322,221) (304,673) (348,883)	\$ (2,874,769) (2,689,640) (2,534,819) (2,723,737)	\$ (43,882) (40,154) (38,002) (43,555)	\$ (118,815) (110,019) (102,818) (117,937)		
2027 Thereafter	-	(71,163) (10,837)	-	18,254 46,071		
	\$ (1,327,407)	\$(10,904,965)	\$ (165,593)	\$ (385,264)		

Actuarial Assumptions – The total pension liability (asset) for each of the DRS plans was determined by an actuarial valuation as of June 30, 2020, with results rolled forward to June 30, 2021. The actuarial assumptions used in the valuation were based on the results of the OSAs 2013 – 2018 Demographic Experience Study Report and 2019 Economic Experience Study. Additional assumptions for subsequent events and law changes are current as of the 2020 actuarial valuation report. The total pension liability (TPL) was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2021. Plan liabilities were rolled forward from June 30, 2020, to June 30, 2021, reflecting each plan's normal cost (using the entry-age cost method), assumed interest, and actual benefit payments.

- Inflation: 2.75% total economic inflation; 3.50% salary inflation
- Salary Increases: In addition to the base 3.50% salary inflation assumption, salaries are also expected to grow by promotions and longevity
- Investment Rate of Return: 7.40%

Mortality rates were based on the Society of Actuaries' Pub.H-2010 mortality rates, which vary by member status (e.g., active, retiree, or survivor), as our base table. OSA applied age offsets for each system, as appropriate, to better tailor the mortality rates to the demographics of each plan. OSA applied the long-term MP-2017 generational improvement scale, also developed by the Society of Actuaries, to project mortality rates for every year after the 2010 base table. Under "generational" mortality, a member is assumed to receive additional mortality improvements in each future year, throughout their lifetime.

Discount Rate – The discount rate used to measure the TPL for all DRS plans provided by Edmonds was 7.40%. To determine that rate, an asset sufficiency test included an assumed 7.50% long-term discount rate to determine funding liabilities for calculating future contribution rate requirements. Consistent with the long-term expected rate of return, a 7.40% future investment rate of return on invested assets was assumed for the test. Contributions from plan members and employers are assumed to continue being made at contractually required rates (including PERS 2/3, whose rates include a component for the PERS 1 plan liabilities). Based on these assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.40% was used to determine the total liability.

Long-Term Expected Rate of Return – The long-term expected rate of return on the DRS pension plan investments of 7.40% was determined using a building-block method. The Washington State Investment Board (WSIB) used a best estimate of expected future rates of return (expected returns, net of pension plan investment expenses, including inflation) to develop each major asset class. Those expected returns make up one component of WSIBs capital market assumptions. The WSIB uses the capital market assumptions and their target asset allocation to stimulate future investment returns at various future times. The long-term expected rate of return of 7.40% approximately equals the median of the stimulated investment returns over a 50-year time horizon, adjusted to remove or dampen any short-term changes to WSIBs capital market assumptions (CMAs) that are not expected over the entire 50-year measurement period.

Estimated Rates of Return by Asset Class – Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021, are summarized in the table below. The inflation component used to create the table is 2.20% and represents the WSIBs most recent long-term estimate of board economic inflation.

Asset Class	Target Allocation	Percent Long- Term Expected Real Rate of Return
Fixed income	20.00%	2.20%
Tangible assets	7.00%	5.10%
Real estate	18.00%	5.80%
Global equity	32.00%	6.30%
Private equity	23.00%	9.30%
Inflation component		2.20%
Investment rate of return		7.40%

Sensitivity of the Net Pension Liability (Asset) – The table below presents the College's proportionate share of the net pension liability (NPL) calculated using the discount rate of 7.40%, as well as what the College's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage point lower (6.40%) or one percentage point higher (8.40%) than the current rate.

Pension Liability / (Assets)								
	Current							
1.00% Decrease	Discount Rate	1.00% Increase						
(6.40%)	(7.40%)	(8.40%)						
\$ 2,037,834	\$ 1,196,224	\$ 462,252						
(3,512,232)	(12,328,786)	(19,589,222)						

Employer's Proportionate Share of the Net

PERS Plan 1	\$ 2,037,834	\$ 1,196,224	\$ 462,252
PERS Plan 2/3	(3,512,232)	(12,328,786)	(19,589,222)
TRS Plan 1	211,713	110,455	22,089
TRS Plan 2/3	78,692	(451,272)	(883,588)
Totals	\$ (1,183,993)	\$ (11,473,379)	\$ (19,988,469)

Pension Plan Fiduciary Net Position – Detailed information about the State's pension plans' fiduciary net position is available in the separately issued DRS financial report.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2022, Edmonds reported a total pension liability (asset) for its proportionate share of the net pension liabilities/(assets) as follows:

	Net Pension iability (Asset)
PERS Plan 1 PERS Plan 2/3 TRS Plan 1 TRS Plan 2/3	\$ 1,196,224 (12,328,786) 110,455 (451,272)
	\$ (11,473,379)

There were no College or faculty contribution payables to the DRS at June 30, 2022.

At June 30, 2022, the College's proportionate share of the collective net pension liabilities (assets) were as follows:

PERS Plan 1	0.097952%
PERS Plan 2/3	0.123763%
TRS Plan 1	0.016405%
TRS Plan 2/3	0.016417%

Employer contribution transmittals received and processed by the DRS for the fiscal year ended June 30, 2022, are used as the basis for determining each employer's proportionate share of the collective pension amounts reported by the DRS in the *Schedules of Employer and Nonemployer Allocations* for all plans.

Pension Expense (Revenue) – The table below shows the components of each plan's pension expense (revenue), excluding State Board Retirement Plan, as it is affected by faculty benefits:

State Board Retirement Plan (SBRP) - Supplemental Defined Benefits Plans

Plan Description – The State Board Retirement Plan is a privately administered single employer defined contribution plan with a supplemental defined benefit plan component, which guarantees a minimum retirement benefit based upon a one-time calculation at each employee's retirement date. The supplemental component is financed on a pay-as-you-go basis. Edmonds participates in this plan as authorized by Chapter 28B.10 RCW and reports its proportionate share of the net pension liability. House Bill 1661, effective fiscal year 2021, created separate Supplemental Retirement Plan (SRP) funds by institution that met the definition of a trust or equivalent arrangement. As a result, this is the first year these plans will be reported under GASB Statement No. 67/68. Prior to this, the SRP was reported under GASB Statement No. 73.

Benefits Provided – The State Board Supplemental Retirement Plans provide retirement, disability, and death benefits to eligible members.

As of July 1, 2011, all the Supplemental Retirement Plans were closed to new entrants.

Members are eligible to receive benefits under this plan at age 62 with 10 years of credited service. The supplemental benefit is a lifetime benefit equal to the amount a member's goal income exceeds their assumed income. The monthly goal income is the one-twelfth of two percent of the member's average annual salary multiplied by the number of years of service (such product not to exceed one-twelfth of fifty percent of the member's average annual salary). The member's assumed income is an annuity benefit the retired member would receive from their defined contribution Retirement Plan benefit in the first month of retirement had they invested all employer and member contributions equally between a fixed income and variable income annuity investment.

Plan members have the option to retire early with reduced benefits.

Actuarial Assumptions – The total pension liability was determined by an actuarial valuation as of June 30, 2021. Update procedures were used to roll forward the total pension liability to the June 30, 2022, measurement date using the following actuarial assumptions, applied to all periods included in the measurement:

• Salary Increases 3.50%–4.25%

• Fixed Income and Variable Income Investment Returns 2.20% - 9.30%

Mortality rates were developed using the Society of Actuaries' Pub. H-2010 mortality rates which vary by member status (e.g., active, retiree, or survivor), as the base table. The Office of the State Actuary applied age offsets as appropriate to better tailor the mortality rates to the demographics of each plan. OSA applied the long-term MP-2017 generational improvement scale, also developed by the Society of Actuaries, to project mortality rates for every year after the 2010 base table. Under "generational" mortality, a member is assumed to receive additional mortality improvements in each future year throughout their lifetime.

Most actuarial assumptions used in the June 30, 2021, valuation were based on the results of the August 2021 Supplemental Experience Study. Additional assumptions related to the salary growth were based on feedback from financial administrators of the Higher Education Supplemental Retirement Plans.

Material Assumption Changes – Some significant changes in plan provisions and actuarial assumptions from the prior fiscal year impacted the TPL. House Bill 1661 (Chapter 103 Laws of 2020) created dedicated funds to pay SRP benefits that mimic a trust arrangement for the rest of the state retirement system. The change results in SRP reporting under GASB 67/68 instead of GASB 73. As a result of this change:

- The discount rate is based on the long-term expected rate of return on the pension plan investments.
- This resulted in an increase in the discount rate used to measure the TPL from the 2.21% as of June 30, 2020 to 7.00%.
- The total pension liability is now compared against the plan's fiduciary net position to determine the NPL.

Additionally, OSA recently completed an experience study which modified multiple assumptions to estimate future plan experience.

Discount Rate – The discount rate used to measure the total pension liability was set equal to the Bond Buyer General Obligation 20-Bond Municipal Bond Index, or 7.00% for the June 30, 2022, measurement date.

Contributions – Contribution rates for the SBRP Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF), which are based upon age, are 5%, 7.5%, or 10% of salary and are matched by the College. Employee and employer contributions for the year ended June 30, 2022, were \$2,427,734 and \$2,427,746, respectively, for a total contribution of \$4,855,480.

Pension Expense (Revenue) – For the year ended June 30, 2022, Edmonds reported \$(399,571) for pension expense (revenue) in the State Board Supplemental Retirement Plans.

Proportion Share %	4	.4079851%

2027		(412,848)
Thereafter		141,435
	<u>\$</u>	(1,461,606)

Note 13 – Other Post-Employment Benefits (OPEB)

The College's employees are eligible to participate in the employer defined benefit OPEB plan administered by the State Health Care Authority (HCA). The plan, as authorized through RCW 41.05.065, is designed by the Public Employee Benefits Board (PEBB), created within HCA, and determined the terms and conditions of employee and retired employee participation and coverage, including eligibility criteria. The PEBB OPEB plan benefits are provided in accordance with a substantive plan, rather than a formalized contract or plan document and, as such, rely on communication of the plan terms by HCA with employers and plan members as well as the historical practice of plan cost sharing employers. The understanding by the employer and plan members is that there is no contractual obligation to continue the substantive plan as an employee benefit on an ongoing basis. Nevertheless, the actuarial assumptions used in valuations presented in this footnote assume that this substantive plan will be carried forward into the future.

The PEBB OPEB plan is funded by monthly contributions with amounts established by the Legislature as part of the biennium budget process. For the FY 2022, the monthly contribution amount was \$183 per employee. There are no plan assets. Rather, the monthly contributions are used to pay for current benefits provided. The plan does not issue a publicly available financial report.

The PEBB retiree OPEB plan is available to employees who are eligible for retirement and choose to continue coverage by paying the administratively established health insurance premiums at the time of their retirement, in accordance with the provisions of their respective retirement plan.

Per RCW 41.05.022, retirees who are not yet eligible for Medicare benefits may continue participation in the state's non-Medicare community-rated health insurance risk pool on a self-pay basis. Retirees in this risk pool receive an implicit subsidy because the retired members pay a premium based on the claims experience for active employees and other non-Medicare retirees. The subsidy is valued using the difference between the age-based claims cost and the premium.

Retirees who are reenrolled in both Parts A and B of Medicare may participate in the state's Medicare community-rated health insurance risk pool. Medicare retirees receive an explicit subsidy from the reduced premiums. The explicit subsidy is established through an annual recommendation by the HCA administrator, which is included in the Governor's budget with the final amount approved by the state Legislature. In calendar year 2021, the explicit subsidy was up to \$183 per enrollee member per month.

OPEB implicit and explicit subsidies as well as administrative costs are funded by the required contributions participating employers make. The Commission is required to make monthly contributions on behalf of all active, health care eligible employees (headcount), regardless of enrollment status. The allocation method used by the state to determine the proportionate share of the OPEB related liabilities, deferred inflows, deferred outflows, and expense is the percentage of headcount as a percentage of the state's total headcount.

This same method is used to determine the transactions subsequent to the measurement date, specifically the retiree portion of premium payments made by agencies on behalf of active, health care eligible employees between the measurement date of June 30, 2021, and the reporting date of June 30, 2022. The portion of health care premiums attributed to retirees for both explicit and implicit subsidies is taken from the FY 2021 Third Quarter Update in the PEBB Financial Projection Model (PFPM) from the State Health Care Authority.

Additional information will be included in the Washington State 2022 Comprehensive Annual Financial Report on the OFMs website (www.ofm.wa.gov/accounting/financial-audit-reports/comprehensive-annual-financial-report). Additional information on health care trends rates and other actuarial data is available on the Office of the State Actuary's website (leg.wa.gov/osa).

For the year ended June 30, 2022, HCA reports total OPEB liability of \$6.472 billion. At June 30, 2022, Edmonds recognized its proportionate share of the OPEB liability of \$33,374,787. The OPEB liability was measured as of June 30, 2021, and the total liability used to calculate the OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

For the year ended June 30, 2022, Edmonds recognized OPEB expense of \$643,918 and recognized deferred outflows and inflows of resources related to the net OPEB liability from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions Changes in proportion Difference between expected and actual experience Transactions subsequent to measurement date	\$ 2,125,473 - 570,891 550,944	\$ 6,050,997 5,513,790 129,195
	\$ 3,247,308	\$ 11,693,982

The \$550,944 reported as deferred outflows resulting from transactions subsequent to the measurement date will be recognized as a reduction in the OPEB liability in the year ended June 30, 2022.

Other amounts reported as deferred inflows of resources will be recognized as OPEB expense in subsequent years as follows:

Year Ending June 30,	 Amount
2023	\$ (1,745,133)
2024	(1,745,133)
2025	(1,745,133)
2026	(1,745,130)
2027	(1,043,916)
Thereafter	 (973,173)
	\$ (8,997,618)

The total OPEB liability in the June 30, 2021, actuarial valuation, which was rolled forward to June 30, 2022, was determined using the following actuarial assumptions:

Inflation	
Economic	2.75%
Salary	3.50%
(Salaries are also expected to grow by promotions and longevity)	
Health care trend rates	
Initial rate	2.00-11.00%
Expected by 2075	4.30%

Mortality rates were developed using the Society of Actuaries' Pub. H-2010 mortality rates which vary by member status (e.g., active, retiree, or survivor) as the base table. The OSA applied for each system, as appropriate, to better tailor the mortality rates to the demographics of each plan. OSA applied the long-term MP-2017 generational improvement scale, also developed by the Society of Actuaries to project mortality rates for every year after the 2010 base table. Under "generational" mortality, a member is assumed to received additional mortality improvements in each future year, throughout their lifetime.

Most demographic actuarial assumptions, including mortality and when members are expected to terminate and retire, were based on the results of the 2013-2018 Demographic Experience Study Report. The post-retirement participation percentages and percentage with spouse coverage were reviewed in 2017. Economic assumptions, including inflation and salary increases, were based on the results of the 2019 Economic Experience Study.

Because the OPEB benefits are funded on a pay-as-you-go basis, the discount rate used to measure the OPEB liability was set equal to the Bond Buyer General Obligation 20-Bond Municipal Bond Index, which was 2.16% for the June 30, 2021, measurement date.

The following represents the College's proportionate share of the OPEB liability calculated using the discount rate of 2.16% as well as what the proportionate share of the OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.16%) and one percentage point higher (3.16%) than the current rate:

Discount Rate Sensitivity						
1% Decrease Current Discount					% Increase	
(1.16)%		Rate (2.16)%		(3.16)%		
\$	40,435,922	\$	33,374,787	\$	27,884,807	

The following represents the total OPEB liability of Edmonds, calculated using the health care trend rates of 2.00-11.00%, as well as what the total OPEB liability would be if it were calculated using health care trend rates that are one percentage point lower (1.00-10.00%) or one percentage point higher (3.00-12.00%) than the current rate:

Health Care Cost Trend Rate Sensitivity							
1% E	Decrease (1.00-		Rate (2.00-	1% I	ncrease (3.00-		
10.00)%		11.00)%			12.00)%		
\$	26,925,980	\$	33,374,787	\$	42,089,301		

Note 14 – Washington State Deferred Compensation Program

Edmonds, through the state of Washington, offers its employees a deferred compensation plan created under Internal Revenue Code Section 457. The plan, available to all State employees, permits individuals to defer a portion of their salary until future years. The state of Washington administers the plan on behalf of the College's employees. The deferred compensation is not available to employees until termination, retirement, or unforeseeable financial emergency. Edmonds does not have access to the funds.

Note 15 – Functional Operating and Nonoperating Expenses by Program

In the Statement of Revenues, Expenses, and Changes in Net Position, operating and nonoperating expenses are displayed by natural classifications, such as salaries and wages, benefits, and supplies and materials. The table below summarizes operating and nonoperating expenses by program or function such as instruction, research, and academic support. The following table lists operating and nonoperating expenses by program for the year ending June 30, 2022.

	2022
Instruction	\$ 28,593,409
Student services	17,813,574
Institutional support	10,891,366
Academic support services	7,090,322
Depreciation and amortization	6,878,734
Scholarships and other student financial aid	6,329,851
Operations and maintenance of plant	5,765,297
Auxiliary enterprises	4,610,733
Other functional expenses	2,280,618
	\$ 90,253,904

Note 16 – Commitments and Contingencies

Edmonds is engaged in various legal actions in the ordinary course of business. Management does not believe the ultimate outcome of these actions will have a material adverse effect on the financial statements.

Note 17 - Discretely Presented Component Unit

Edmonds College Foundation (the Foundation) is a Washington nonprofit corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. The Foundation is organized to provide access, success, and excellence for students, faculty, and staff at Edmonds College. The Foundation is operated to receive, hold, invest, and properly administer the assets and to make expenditures to or for the benefit of the College.

As discussed in Note 1, the Foundation has been included in the reporting entity as a component unit. Although the Foundation is not deemed to be a governmental entity and uses a different reporting model, its balances and transactions have been converted to follow governmental accounting for reporting in the Statement of Net Position and Statement of Revenues, Expenses, and Changes in Net Position.

During the year ended June 30, 2022, Edmonds received \$1,052,558 from the Foundation and is included in state and local grants and contracts revenue.

Note 18 - Restatements

Due to a change in accounting software in the prior year, the College identified state allocation revenue was improperly reconciled which resulted in an understatement of the related revenues and cash. Additionally, the College identified student insurance liabilities was not reconciled which resulted in an overstatement of the related liabilities and understatement of student revenue. Due to outstanding litigation in the prior year, the College identified construction invoices that were not accounted for which resulted in an understatement of the related capital assets and accounts payable.

The change for assets and liabilities is as follows:

ASSETS		
Cash and cash equivalents, beginning of year	\$	5,632,735

Notes to Required Supplementary Information

N/A indicates data not available.

Change to benefit terms: There were no changes to benefit terms.

Change in assumptions: The discount rate increased from 2.21% to 7.40%. Given the creation of dedicated funds to pay SRP benefits under HB1661, the discount rate is now based on the long term expected rate of return on the pension plan investments rather than the bond index rate.

^{*}These schedules are to be built prospectively until they contain 10 years of data.

^{**}Due to changes in legislation, assets from this higher education institution plan that was not previously administered through a trust, was placed into a trust or similar arrangement. As a result, this plan previously reported under GASB Statement No. 73, is now reported under GASB Statement No. 68. This change is effective for fiscal year 2021.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Independent Auditor's Report

Board of Trustees Edmonds College Lynnwood, Washington

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the business-type activities and the aggregate discretely presented component unit of Edmonds College (the College), a component unit of the State of Washington, a component unit of the State of Washington as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated November 15, 2024. The financial statements of the Edmonds College Foundation (the Foundation) were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Foundation.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency described

in the accompanying Schedule of Findings and Responses as item 2022-001 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Responses as item 2022-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The College's Response to Findings

avis Fare LLP

Government Auditing Standards requires the auditor to perform limited procedures on the College's response to the finding identified in our engagement and described in the accompanying Schedule of Findings and Responses. The College's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Irvine, California November 15, 2024

EDMONDS COLLEGE

Schedule of Findings and Responses

For the Year Ended June 30, 2022

2022-001: Adjustments Detected During the Audit

An important element of control over financial reporting is for management to identify adjustments necessary for financial statements to be fairly stated. Whenever possible, adjustments should be reflected in the accounting records prior to the start of the audit. When this is not possible, management should identify and communicate to the auditors the potential areas of adjustment that may need to be addressed during the audit process. Auditing standards require the reporting of material adjustments identified through the audit process as weaknesses in an entity's internal control structure. During the audit, we identified an adjustment to record compensated absences for buy-out liabilities erroneously eliminated as of June 30, 2022.

Recommendation

We recommend that the College enhance its year-end closing procedures to include areas that resulted in audit adjustments.

Management's Response Regarding Corrective Action Taken or Planned

Edmonds College conversion to the new enterprise resource planning (ERP) system ctcLink just 16 months prior to June 2022 continues to present challenges in reporting which affect estimations made for adjustments. The college relies heavily on the information provided in documentation created by the State Board for Community and Technical Colleges (SBCTC). Edmonds discovered at the end of July 2024 that the documentation and estimations made to adjust compensated absences were incorrect. Unfortunately, this information was unavailable at the time Financial Statements were created and provided to the auditors. The college notified the auditors as soon as the new documentation was provided and drafted the adjusting entries to correct. The college has since updated all of the year end adjustment documentation to insure no such error will occur in the future.

2022-002: Untimely Bank Reconciliation

Due to limitations surrounding the CTCLink implementation, the College has not completed its monthly bank reconciliations in a timely manner, including the June 2022 reconciliation having been prepared and reviewed in January of 2024.

Recommendation

We recommend that the College continue to work through the backlog of months with unperformed bank reconciliations until all months from July 1, 2020, through the present have been performed.

Management's Response Regarding Corrective Action Taken or Planned

Edmonds College recognizes the importance of a strong internal control environment and takes very seriously the identification of a weakness in the college's controls over financial reporting. The College appreciates the opportunity to respond to this finding.

EDMONDS COLLEGE

Schedule of Findings and Responses

For the Year Ended June 30, 2022

Following the close of FY21, the College has developed a more effective process for bank reconciliation. This process continues to be labor intensive given the limitations of the current ERP system in reporting. However, the College continues to collaborate with the State Board for Community and Technical Colleges (SBCTC) to identify issues swiftly and provide feedback, as the SBCTC is developing enhancements to improve the bank reconciliation tools.

The College's business office employees are also participants in state, cross-pillar ERP working groups which (a) work to identify subledger transaction details to map them to the general ledger and (b) discuss how best to reconcile. These activities have allowed the college to make progress in completing more timely reconciliations in future fiscal years.
