Did You Know...

Cabbage is one of the oldest vegetables in existence and a dietary staple throughout the world.

Cabbage is high in fiber, vitamin C, vitamin K, and naturally fat free and cholesterol free.

Cabbage can be steamed, boiled, braised, microwaved, stuffed, stir-fried, or eaten raw.

Look for the cabbage image on the menu to find new ways to serve cabbage at home!

Ask your child about the fun things they learned about cabbage in their class this month!
