

STATE OF WASHINGTON
EDMONDS COLLEGE
SOLE SOURCE POSTING

April 24, 2023

EDMONDS COLLEGE contemplates awarding a sole source contract to AVKINS INC to provide wearable simulators for clinical training in our nursing program.

AGENCY requires wearable simulation equipment for use by student nurses. Students will use these simulators to provide clinical care to live patients (fellow students), developing patient/family contact and communication without the risk of invasive procedures.

EC will enter into a contract with AVKINS INC. The contract will be issued on or after May 9, 2023. The cost of this contract is \$108,423.

Offerors contemplating the above requirements are required to submit capability statements detailing their ability to meet the state's requirements within five (5) working days of this announcement.

Capability statements should address the following state requirements:

- Simulators must provide wearable technology that can be worn by a live person, protecting them from invasive procedures while enabling them to react to the care that is being provided;
- Examples of their capacity to provide the products above; and
- Experience with other Higher Education Nursing Programs.

In the absence of other qualified sources, it is the state's intent to make a sole source award of the contract. To submit capability statements or for questions, contact:
