

# SCIENCE, ENGINEERING, AND TECHNOLOGY (SET) BUILDING

Opening at Edmonds CC in 2020

The SET Building will be a new state-of-the-art student and faculty facility with classrooms, labs, and offices focused on the STEM (science, technology, engineering, and math) fields.

## New features of SET Building:

- 70,000 sq. foot state-of-the-art building to include labs, classrooms, and offices
- Home to pre-engineering curriculum incorporating training for jobs with major employers like Boeing
- New nursing simulation labs give students clinical experience
- 40-foot depth of laboratory area includes space for three teaching labs
- Includes active learning spaces shared by all departments to facilitate student engagement and collaboration
- Includes common spaces for individual student study or group study
