*“Having been both a faculty member and a student at Edmonds Community College; I am convinced that Edmonds Community College has one of the best teaching and learning environment in the area. Faculty members bring a wealth of knowledge and experience into the classrooms while providing a safe, inclusive, and engaging environment for students. Edmonds Community College truly lives true to its mission of Teaching, Learning, and Community”.*

### ABOUT EDMONDS CC'S BUSINESS DEPARTMENT:

Today's business environment is competitive, demanding, and ever changing. If your career goal is management — of people, projects, or policies — a degree or certificate will be an asset. Every program is designed to give you the skills that employers value across industries: critical thinking, communication, teamwork, management, and technology.

At Edmonds CC, you can customize a certificate or degree based on your job experience and goals. You can build a foundation to qualify for entry-level management positions or take a specialized program to upgrade to a higher-level position.

Earn a two-year degree or complete a certificate in a year or less. Take classes during the day, evening, or online. Select classes that teach the skills you need — including marketing, human relations, business information management, human resources, and event planning — to advance your career or to enter a new position or field.

### DEGREES AND CERTIFICATES INCLUDE:

- Business Management, ATA
- Entrepreneurship and Small Business
- Business Management and Supervision
- Business Studies
- Marketing
- Project Management
