EDMONDS
COMMUNITY COLLEGE

Spark your personal and professional growth with lifelong learning.

Dr. Amit B. Singh
Edmonds CC President

Welcome to the first edition of our Edmonds Community College Continuing Education brochure where we hope to inspire you to pursue a personal passion, learn a skill, or even train for a new job. We take pride in promoting lifelong learning and creating paths where all are welcome to go after their educational and career goals.

Pursue personal enrichment

Last summer I had the pleasure of meeting 90-year-old Donn Charnley, who teaches geology classes for Edmonds CC's Creative Retirement Institute (CRI). He credits CRI with keeping his mind young and says that he feels like he's only 68. Donn is a great example of the benefits of lifelong learning. CRI has been serving our community for more than 25 years and offers 34 classes this fall in subjects ranging from literature to technology.

Learn a skill in just 2 hours

The Facility Makerspace embraces the maker and Do It Yourself movements as a DIY space for the community. As David Voetmann, who runs the makerspace, says, "It's a gym for people who make things." The Facility is an 11,000-square-foot space that houses over \$1 million in state-of-the-art high-end technical

equipment used in the production of composites, aerospace, and consumer products. After a two-hour training session, you could have DIY access to laser cutters, 3D printers, 3D scanners, and a CNC router to take your idea from thought to reality.

Train for a new career

At the Washington Aerospace Training and Research (WATR) Center, you can train for an entry-level job in aerospace manufacturing in 12 weeks. Graduates of WATR leave the program with the technical and employability skills needed in today's competitive job market. For employers, the center also offers customized training and has trained more than 1,000 incumbent workers. Short-term training has long-term benefits, from tackling the skills gap to driving the industry's future innovations.

These are just a few of the many options Edmonds CC offers to those who wish to take their learning and skills to the next level. I encourage you to find the one that's right for you.

In this era of rapid technological innovation, we all need to keep advancing our skills and learning. At Edmonds CC, we're committed to offering you the classes and training options you need to succeed in your professional development or personal growth and enrichment.

Dr. Terry Cox
Vice President
Workforce Development and Training

8 THE FACILITY MAKERSPACE

Welcome to your innovation sandbox

WASHINGTON AEROSPACE TRAINING AND RESEARCH (WATR) CENTER

More than 1,950 graduates of the WATR Center are now working in aerospace and manufacturing.

Free tour every Monday at noon.
No RSVP required.

12 WEEKS TO A CAREER

Individuals seeking careers in manufacturing and aerospace find success at the WATR Center. Graduates leave the program with the training – Core Certificate and Specialty Certificate credentials – to be competitive job candidates in the fast-growing aerospace manufacturing industry. Students will complete seven to eight weeks online and three to four weeks in the classroom.

CORE CERTIFICATE

AEROSPACE MANUFACTURING CORE CERTIFICATE

9 credits | \$2,500

Prerequisite for Specialty Certificates

This requisite class introduces students to the basics of aerospace, including aircraft familiarization, an overview of aviation history, hand and power tool use, reading engineering drawings, and safety procedures.

SPECIALTY CERTIFICATES

AEROSPACE MANUFACTURING ASSEMBLY MECHANIC

18.5 credits | \$3,200

This program teaches the skills necessary for working with the metal components of an airplane, including drilling and riveting sheet metal. Students will learn the skills and tools needed to assemble the basic structure of an airplane.

AEROSPACE ELECTRICAL ASSEMBLY

16 credits | \$3,200

Students will learn how to assemble, install, and troubleshoot the thousands of electrical components necessary to an aircraft's operation, including wire bundles, circuit boards, and soldering.

AEROSPACE TOOLING MECHANIC

17 credits | \$3,200

This program teaches the skills and precise attention to detail necessary to correctly measure and assemble tools used to build airplanes.

AEROSPACE COMPOSITE TECHNICIAN

19 credits | \$3,200

Synthetic materials such as carbon fiber and fiber glass are vital in the construction of aircraft. Students will learn how to produce these composite materials, operate ovens and autoclaves, as well as identify and repair damage.

AEROSPACE QUALITY ASSURANCE

16.5 credits | \$3,200

Advanced Certificate: Must have CORE + advanced aerospace experience, or CORE + Any Specialty Certificate

Quality inspectors are responsible for ensuring that all parts of the aircraft meet standards and allow the plane to operate safely. QA students will learn a broad range of knowledge in electrical, tooling, composites, and assembly to ensure that all parts of the aircraft are functional and meet safety standards.

Financial aid is available to those who qualify.

CUSTOMIZED TRAINING

The WATR Center has experience working with companies to develop and deliver training that protects proprietary information and gives employees the skills to improve your organization's bottom line. Benefits include:

- Short-term skills training
- Keeps pace with aerospace and manufacturing
- Flexible delivery methods
- Train onsite at WATR or your business

BUSINESS TRAINING CENTER

The Business Training Center provides industry partners and their employees with training tailored to its needs and performance expectations.

Classes offered year round.

TRAINING FOR INDUSTRY

Enhance your skills close to home and work.

Learn the high-tech skills needed for today's aerospace manufacturing industry. Courses at the Business Training Center integrate engineering disciplines with strong technological understanding. We're proud to serve our industry partners, including The Boeing Company, and welcome all fields.

ADVANCED AEROSPACE TRAINING

ADVANCED COMPOSITES

- Advanced Composites | Design, Manufacture, and Engineering
- Applied Composites
- Rigid Composite Structures

GENERAL INDUSTRY SKILLS

- Basic Metal Fabrication

3D ENGINEERING DESIGN SERIES

- Additive Manufacturing | Prusa Printer
- 3D Design and Machining | Fusion 360

ROBOTIC AUTOMATION/MECHATRONICS

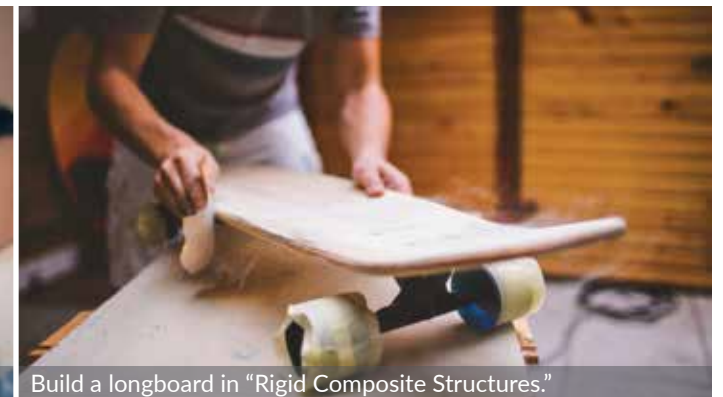

- Industrial UAV Systems
- Intro to Electronics and Automation
- Introduction to Robotic Automation
- Production Electronics
- Siemens PLC Automation

DESIGN TEAM

- Aerial Heavy-Lift Service Platform
- Subtractive Manufacturing Laser Technology
- Winged Unmanned Aircraft Design

Build a drone in "Winged Unmanned Aircraft Design."

Build a longboard in "Rigid Composite Structures."

CERTIFICATION AND LICENSING

REAL ESTATE PRE-LICENSING

90 clock hours, satisfies Washington State's Fundamentals Pre-Licensing education requirements

Contact: Shelia Dersham, WATR Center associate director | 425.640.1840

FLAGGING

Certificate valid for three years in Washington, Oregon, Idaho, and Montana

BUSINESS TRAINING CENTER

3008 100th St. SW, Everett, WA 98204 | 425.640.1840

YOUR 11,000 sq. FT. INNOVATION SANDBOX

All the tools, training, and community you need to turn your thoughts into things.

THE FACILITY MAKERSPACE

Dive into a new skill, and we'll have you up and running in 2 hours.

Free tour every Thursday at 6 p.m.

TRAINING: FASTER THAN EVER

Orientations | Want to pick up a brand-new skill set? Whether you're jumping into something new or getting a refresher on a skill set you haven't practiced for a while, our two-hour orientations are designed to get you safely operating equipment as quickly as possible with small class sizes and a regular schedule rotation. Orientations available for the following equipment:

- 3D printers
- CNC router
- Composites lab
- Introduction to CAD
- Laser cutters
- Manual lathe
- Manual mills
- Mig welder
- Motorcycle maintenance
- Woodshop
- Wood lathe

Checkouts | Already mastered a particular tool or area?

Schedule a Checkout and get right to work. A brief orientation to our specific shop safety requirements and an opportunity to demonstrate what you know, our Safety and Basic Use (SBU) Checkouts are complementary for members and available at no charge if you've booked a Tool Reservation or Cover Charge.

Personal Training | Looking for flexibility and personal attention?

For the kind of one-on-one experience not available through group classes, our Personal Training sets up instructors and programming to fit your particular needs, and progresses at your own pace, with checkouts completed as you move forward.

Intensives | Time to dig deeper?

While Orientations and Checkouts are vetting classes designed to give you just what you need to work safely in the makerspace, our Intensives provide a wide variety of options to push yourself forward, from two-hour Introduction classes that focus on the theory behind specific tools, to hands-on Workshops that can run anywhere from two hours to eight weeks or more.

TOOLS AND WORKSPACES

RAPID PROTO LAB - Two ULS laser cutters, three NextEngine 3D scanners, two Form 2 3D printers, four TAZ 6 3D printers, and a uPrint 3D printer

COMPOSITES LAB - 10 vacuum bagging stations, filament winder, curing oven, three vacuum molding units, and a rotational molder

WOODSHOP - CNC router, table saw, compound miter saw, bandsaw, wood lathe, router table, drill presses, jig saw, sanding and shaping, and various hand tools

METAL SHOP - drill presses, metal bandsaw, horizontal bandsaw, shear, brake, bench grinder, angle grinders, deburring tank, waterjet cutter, and hand tools

MACHINE TECH - CNC knee mill, manual mill, engine lathe, and a HAAS machining center

DESIGN STUDIO - Six computer stations with software: Fusion 360, V-Carve, Rhino, Solidworks, Mastercam, Microsoft Office, and Solitaire

FLEX SPACE - MIG welding rigs, fabrication tables, kilns, large format workspace, garage door access, class and demo area

THE FACILITY MAKERSPACE

6606 196th St. SW, Lynnwood, WA 98036 | 425.640.1964

COMMUNITY EDUCATION

Where life and learning meet!
 Small, inviting non-credit classes offer you the opportunity to challenge yourself in a supportive and fun environment.

SPARK YOUR CREATIVITY, LEARN A NEW SKILL

Looking to learn a new language, experience art, or improve your creative writing? Community Education offers a variety of personal enrichment and business classes taught by master artists and local business experts.

CAREER AND BUSINESS

Make Life Easier With These 5 Google Apps

Your Gmail account gives you access to Google's other cloud-based applications and services that are available on your computer, tablet, and smartphone. Learn to use Google's timesaving apps: Drive and Docs; Calendar; Keep; Photos; and Slides.

Item: C338 **Fee: \$49**
 1 Mon., 11/4 5-7 p.m.
 Schwartz, Kate ● SQL 214

IRS Enrolled Agent - Part 1: Individuals

Review taxes for individuals, and qualifications and procedures for client representation in depth. Topics include tax regulations as well as estate and gift taxes. See online course description for textbooks.

Item: C342 **Fee: \$675**
 7 Thurs., 9/5-10/17 6-9 p.m.
 Williams, Mary ● MAB 109
 Orientation: 6-7 p.m., Thurs. 9/5

IRS Enrolled Agent - Part 2: Corporations and Partnerships

Examine corporation (both C Corp and S Corp) and partnership taxes in depth. Topics include tax regulations as well as trust and exempt organization taxes. See online course description for textbooks.

Item: C344 **Fee: \$875**
 9 Mon., Thurs., 10/21-12/9 6-9 p.m.
 Fryrear, Kristine ● MAB 109
 Orientation: 6-7 p.m., Mon. 10/21

IRS Enrolled Agent - Part 3: Representation, Practice and Procedure

You will focus on representation before the IRS; income tax preparers and penalties; representation; collection procedures; examination of returns; and the appeals process. See online course description for textbooks.

Item: C346 **Fee: \$275**
 3 Mon., Thurs., 12/5-12/19 6-9 p.m.
 Grubb, Catherine ● MAB 109
 Orientation: 6-7 p.m., Thurs. 12/5

Come Fly With Me: The Revolution of Drones

Want to learn about drones and avoid getting grounded? There are important regulations that you'll want to know before you take off. Learn about the history of drones, what defines a drone, the potential future they hold in our everyday lives, and the legalities of drone operation for recreational and commercial users. Opportunity to pilot.

Item: C490 **Fee: \$49**
 1 Wed., 10/23 7-9 p.m.
 Hylton, Dale ● MAB 109

WRITING

Revising Your Short Story

Instructor G.G. Silverman will show you her own techniques for editing short fiction and making it attractive to publishers. Students must bring copies of one work in progress (a short story up to 5,000 words) for workshopping, and will leave with a revised piece of writing.

Item: C536 **Fee: \$99**
 4 Tues., 11/5-11/26 7-9 p.m.
 Silverman, GG ● SQL 214

Sell Your Short Stories and Poetry

Award-winning author G.G. Silverman will share her strategies for getting her short work published in magazines, websites, anthologies, and winning prizes. Learn to research your target market, create a submission calendar, how to write a strong cover letter, contract basics, and more. See online course description for supply list.

Item: C532 **Fee: \$69**
 1 Thurs., 10/10-10/10 7-9 p.m.
 Silverman, GG ● SQL 204

VISUAL ARTS

Clay Luminaries

Clay Luminaries is a fun hands-on pottery workshop to explore the world of luminaries, bringing light to Halloween classics. Create a one-of-a-kind lantern out of clay. Class covers basic hand-building and slab techniques. Final work will be fired and glazed to create a lasting work of ceramic arts to take home and enjoy. All levels.

Item: C426 **Fee: \$79**
2 Thurs., 10/17-10/24 6-8 p.m.
James, Monica ● MDL 116

Clay Ornaments and Cookie Plate

Get creative in this gingerbread-themed pottery workshop. Make a one-of-a-kind clay plate and cookie cutter ornaments for the holiday season. Class covers basic hand-building and slab techniques. Final work will be fired and glazed to create a lasting work of ceramic arts to take home and enjoy. All levels.

Item: C496 **Fee: \$79**
2 Thurs., 11/7-11/14 6-8 p.m.
Ridgway, Judy ● MDL 116

Community Ceramics

Community Education Ceramics is built on creativity and community and designed for all levels of hand building and/or wheel throwing. Friendly and encouraging environment to refine your skills. Includes weekly demonstrations. Tuition includes studio fee, two bags of clay, and shared materials.

Section A
Item: C407 **Fee: \$299**
9 Tues., 10/1-12/3 6:30-9:30 p.m.
Keyes, Alexander ● MDL 116

Section B

9 Wed., 10/2-12/4 9:30 a.m.-12:30 p.m.
Ridgway, Judy ● MDL 116

No class 11/26 and 27
Studio time: Sat. 10 a.m.-3 p.m.

Location key: ● Edmonds CC Campus ● Homage Senior Services ● Artworks

Drawing: Beginning and Beyond

You'll be amazed by how well you can draw. Work on a variety of drawing skills to strengthen your ability. Start with basic shapes and add to them to make more complex forms. Instructor Phil Howe has been illustrating internationally for over 30 years. All levels. See online course description for supply list.

Item: C410 **Fee: \$249**
8 Wed., 10/2-11/20 6:30-9 p.m.
Howe, Philip ● MDL 101

Not Your Grandma's Black and White Photography

Want to recreate the look of classic black and white film images? Black and white photography thrives in the digital age. Learn both in-camera and computer techniques to create beautiful and timeless black and white images. Discuss camera settings, differences between color and black and white compositions, contrast, and tonality.

Item: C468 **Fee: \$99**
4 Mon., 10/7-10/28 6:30-8:30 p.m.
Ulvestad, Karen ● SQL 214

Photography: Beginning Digital

Learn basic techniques to take fabulous photos with your manual digital camera. Class covers: basic camera operations; exposure; shutter speed; aperture; ISO; and manual and semi-automatic modes. We'll try black and white, HDR, panning and travel tips. See online course description for a supply list.

Item: C450 **Fee: \$279**
8 Wed., 10/2-11/20 6:30-9:30 p.m.
Saber, Leslie ● SQL 213
Note: Fully manual digital camera required.

Intersection of Water: Watercolor for Beginners

Watercolor techniques for beginners. This course will explore drawing and painting principles for still-life and plein air. All ages welcome.

Item: C482 **Fee: \$109**
Sat., Sun., 10/26-10/27 9 a.m.-12 p.m.
Valdez, J Carlos ● MDL 101

It's Not Graffiti, It's a Mural: Planning

This on-site class will cover the design and creation of a large mural in the Homage Senior Center. Participants will learn about taking a concept from paper to the wall, how to use color, and acrylic painting techniques. The history and process of creating works of art in public spaces will be explored. Artists of all skill levels are welcome.

Item: C340 **Fee: \$195**
6 Fri., 9/27-12/6 11 a.m.-1 p.m.
James, Monica ● HOM

Portrait Painting

Portraits don't have to be complicated. The key to a good likeness is a good photo reference and an accurate drawing. Learn how to light a face to give it soft shadows and clean middle tones. Start with a photograph of your model, progress to underpainting, and then color. All levels. \$4 supply fee included.

Item: C488 **Fee: \$249**
8 Thurs., 10/3-11/21 6:30-9 p.m.
Howe, Philip ● ArtWorks Studio 1

Stock Photography

Make extra money with your photos. Learn about the different types of stock agencies and a practical demonstration of choosing the best photos, how to upload images, track their progress, and enjoy the passive income rewards.

Item: C458 **Fee: \$69**
1 Sat., 10/5-10/5 10 a.m.-2 p.m.
Saber, Leslie ● SQL 212

HOME, HEALTH, AND HEARTH

Craft Beer and Food Pairing

Introduction to the history of the craft beer industry in the U.S. with a focus on the success of the industry in Washington state. Learn how to evaluate, taste and pair with food, and enjoy craft beer in your home and at brew locations using the American Beer Judge Program Guidelines. NOTE: Attendees must be over the age of 21.

Item: C802 **Fee: \$49**
1 Tues., 10/8-10/8 7-9:30 p.m.
Brideau, Roger ● SQL 213

Divorce Planning

Are you planning for divorce? Qualified local professionals with a wealth of experience will help give you the knowledge, support, and resources that you need to survive the process and move with confidence toward a new life. This workshop is designed to help everyone in any stage of untying the knot. Take charge by becoming informed.

Item: C378 **Fee: \$39**
1 Thurs., 10/10-10/10 6:30-9:30 p.m.
Harsin, Dick and Lee, Renee ● LYN 210

Homeschool Nuts and Bolts

Interested in homeschooling but don't know where to start? Learn about money-saving resources and how to effectively teach your child by working with their unique learning style. Meets the Washington state legal requirements as a "Qualifying Course" if successfully completed.

Item: C372 **Fee: \$129**
1 Fri., 10/18 6-9 p.m.
1 Sat., 10/19 9 a.m.-5 p.m.

Welcome to Medicare

Learn about the basic structure of Medicare, enrollment timelines, special and open enrollment events, online enrollment, Medicare fraud, and low-income help.

Item: C336 **Fee: \$15**
1 Mon., 10/21-10/21 6-8 p.m.
Virago, Celeste ● MUK 223

INSTRUCTOR SPOTLIGHT | MONICA JAMES

Growing up, one of Monica James' favorite pastimes was watching and discussing science fiction films with her family. Favorites like "Forbidden Planet," "Dune," and "Alien" fascinated Monica visually as she wondered what was beyond our mundane world and what the future would hold for mankind.

"This element of science, both fact and fiction, influence the abstractions in my work. It is through the perspective of modern technology that history is viewed in my paintings."

Monica's childhood was filled with music, art, and science. Her grandmother taught her to see the twinkle of diamonds in dew drops on spider webs and to see the sky painted by clouds. She began to develop her first ability as an artist -- a heightened sense of observation -- through her appreciation of the natural world.

At 16, she was awarded admission to the Governor's School for the Arts. Monica is a Edmonds CC Visual Arts ceramics instructor. She earned a Bachelor of Fine Arts from Tyler School of Art in Philadelphia, and a Master of Fine Arts in Painting from Savannah College of Art and Design.

Monica will be teaching "Clay Luminaries" and "It's Not Graffiti, It's a Mural: Planning."

LANGUAGE AND CULTURE

French Fundamentals

Bonjour! Learn the basics of French for speaking, reading, and writing in this beginning French class. See online course description for supply list.

Item: C674 **Fee: \$59**
4 Thurs., 10/17-11/7 **1-2:30 p.m.**
Courtney, Patricia ● **MAB 108**

Spanish: Beginning

Just the basics! Gain Spanish grammar and conversational skills for everyday life and travel. Study basic pronunciation and grammatical structure in a nurturing interactive environment. Recommended for beginning Spanish speakers. See online course description for supply and book list.

Item: C762 **Fee: \$195**
9 Mon., 9/30-12/2 **6-8 p.m.**
Baird, Monica ● **SQL 204**

Spanish: Intermediate

Continue with conversation and grammar skills, learn to conjugate verbs in present, past, and future. Prerequisite: Spanish: Beginning.

See online course description for supply and book list.

Item: C764 **Fee: \$195**
9 Tues., 10/1-12/3 **6-8 p.m.**
Baird, Monica ● **SQL 204**

Register online or in person. Go to edcc.edu/ce or see the registration form on page 26.

Spanish: Conversational for Travelers

Learn to master basic Spanish conversation and useful phrases for different travel situations, such as meeting people, asking for directions, ordering in restaurants, shopping, and planning your trip. Prerequisite: Spanish: Beginning. See online course description for supply and book list.

Item: C766 **Fee: \$99**
4 Wed., 10/2-10/23 **6-8 p.m.**
Baird, Monica ● **SQL 204**

Spanish: A Grammar Intensive

This intensive grammar class is for students with Spanish knowledge who want to improve their verb conjugation skills. Covers: present, past, future, imperfect, conditional, and subjunctive verbs in a fun interactive class. Viva! See online course description for supply and book list.

Item: C778 **Fee: \$99**
4 Wed., 10/30-11/20 **6-8 p.m.**
Baird, Monica ● **SQL 204**

PERFORMANCE

Edmonds Wind Ensemble

Experienced musicians looking for a community wind ensemble are invited to join us for weekly rehearsals and a quarterly performance at Edmonds CC. Music performed will be drawn from standard wind ensemble literature. NOTE: Permission from instructor required during the first session. Bring your instrument and music. Warmup starts at 6 p.m.

Item: C610 **Fee: \$95**
10 Tues., 10/1-12/3 **7-9:30 p.m.**
Mostovoy, Steve ● **MIC 114**

Let's Go to the Opera

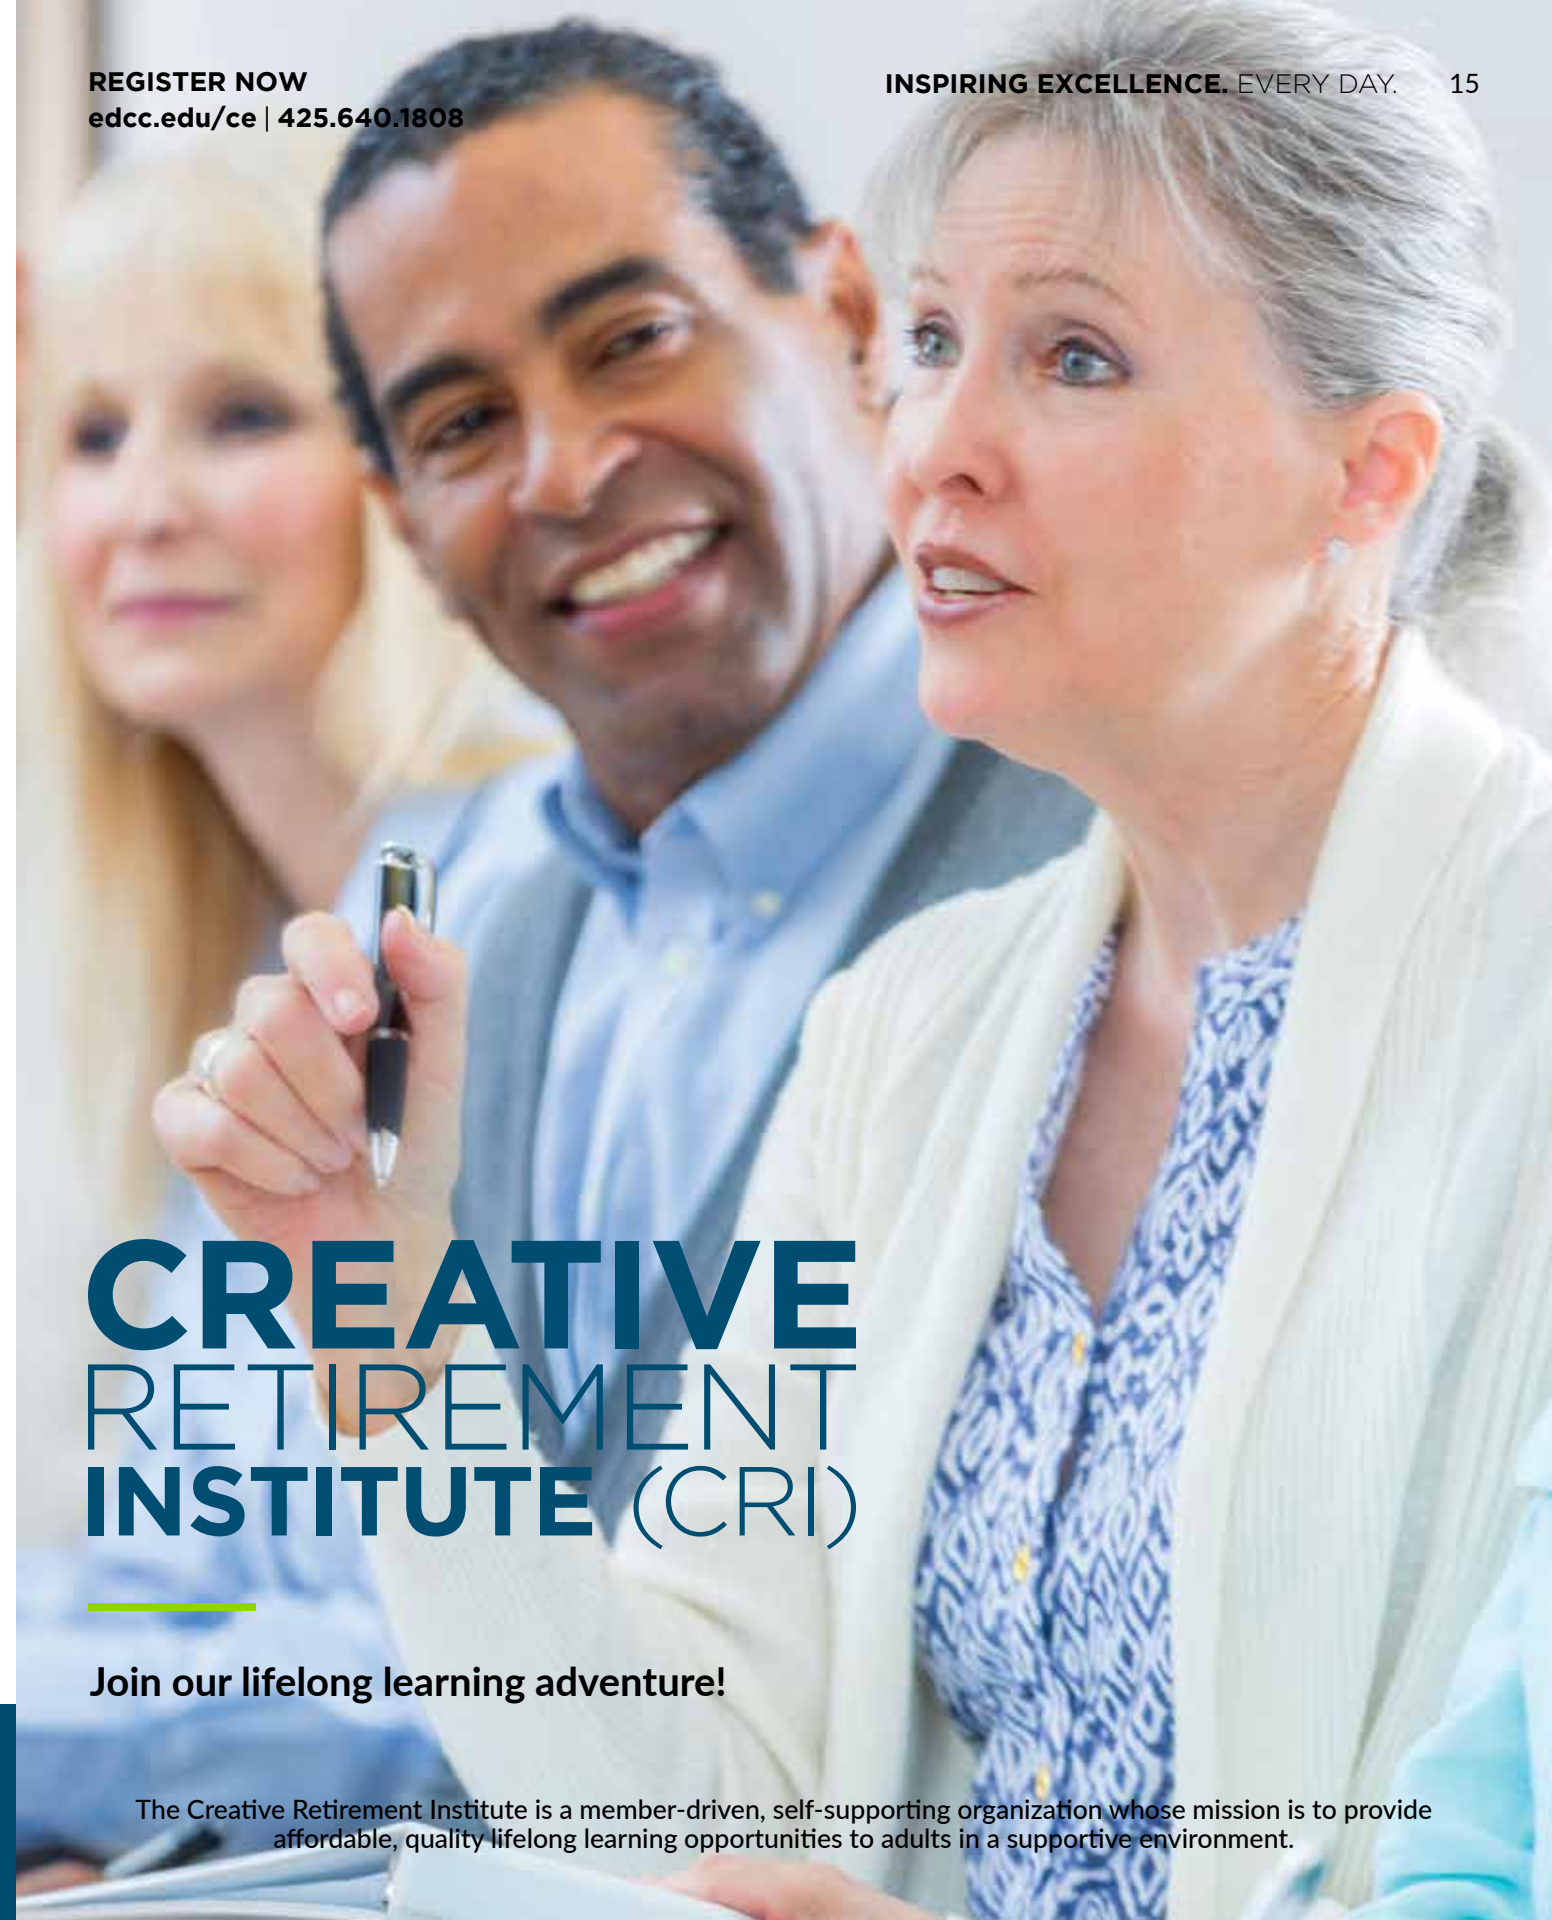

Classes will cover one production of the Seattle Opera season, including background about the operas, composers, cast, and creative teams.

Item: C622 **Fee: \$49**
2 Thurs., 10/3-10/17 **4-5 p.m.**
Miner, Erica ● **MAB 109**

See page 12 for "Community Ceramics."

INSTITUTE (CRI)

All About Maps: Cavemen to Google

Study the history of maps from prehistory to Google Earth. Learn about what a map is, sea monsters on 16th and 17th century maps, the difference between GIS and GPS, and more.

Item: C967 **Fee: \$36**
3 Thurs., 9/26-10/10 **1-3 p.m.**
Wisemiller, Gene ● **MAB 109**

The Electoral College: Love It or Leave It

The Electoral College was established by the Founding Fathers as a compromise between election of a president by Congressional vote or by popular vote by citizens. Five U.S. presidents, including the current one, were elected without winning the popular vote. Learn about the origins of the Electoral College and the ramifications on modern politics.

Item: C877 **Fee: \$24**
2 Fri., 12/6-12/13 **1:30-3:30 p.m.**
Montalvo, Maria ● **MAB 109**

Women's Suffrage Movement in the U.S. (1848-1920)

2020 will mark the 100th anniversary of the 19th Amendment's passage which granted women the right to vote in the U.S. It was the culmination of 70 years of effort and persistence by women to achieve their goal. Examine the movement's beginnings and leaders including Susan B. Anthony, Elizabeth Cady Stanton, Carrie Chapman Catt, and Alice Paul.

Item: C901 **Fee: \$48**
4 Wed., 9/25-10/16 **10 a.m.-12 p.m.**
Rigali, James ● **GWY 352**
 Concurrent with "C949 Exploring Your Wisdom" and "C963 Water Quality and Aquatic Life in the Puget Sound Region."

China: Politics, Economy, and Society

Take a closer look at Chinese politics, economy, and society, and delve into questions like: Is China an emerging superpower or a developing country facing significant internal challenges? Could China still be considered a communist state? What're its prospects for democracy?

Item: C875 **Fee: \$12**
1 Wed., 10/16 **1-3 p.m.**
Murg, Bradley ● **GWY 352**

D-Day Invasion of Normandy: Freedom's Toehold in Europe

June 6, 1944 marked the 75th anniversary of one of the most critical military operations in U.S. history when the largest naval and air task force ever assembled put everything they had into a must-win effort to establish a beachhead in Nazi-occupied France. Learn about the operation plan and execution, and the brave soldiers, sailors, and airmen.

Item: C903 **Fee: \$48**
4 Thurs., 11/14-12/12 **1-3 p.m.**
Szarek, Chris ● **MAB 109**
 No class 11/28

The Roots of Extremism in the Middle East

Explore the social, political, economic, historical, geopolitical, and religious strains that make the Middle East prone to extremism. Particular attention will be paid to sectarianization of the region for political purposes. Examples will be drawn from Egypt, Lebanon, Syria, Israel/Palestine, Iran, Saudi Arabia, and other Gulf states.

Item: C873 **Fee: \$24**
2 Wed., 11/6-11/13 **10 a.m.-12 p.m.**
Fenner, David ● **GWY 352**
 Concurrent with "C963 Water Quality and Aquatic Life in the Puget Sound Region."

American History – The Electric Era: 1870-1898

It was an era of great energy and inventions like the telephone. It was also an era of extremes – robber barons of Rockefeller oil and Carnegie steel contrasted with Ellis Island which processed about a million immigrants a year. With the help of both extremes, the Transcontinental Railroad, the Brooklyn bridge, and skyscrapers of Chicago were built.

Section A
Item: C907 **Fee: \$36**
4 Fri., 9/27-10/18 **1-2:30 p.m.**
Busch, Kristi ● **MAB 109**

Section B
Item: C909 **Fee: \$36**
4 Tues., 10/22-11/12 **1-2:30 p.m.**
Busch, Kristi ● **MAB 109**
 Concurrent with "C897 The Basics of Neuroscience and Aging."

Social Connections

Explore the varied, fascinating, and complex essays in the anthology "Best American Essays of 2015." Through lecture and lively discussion, we'll analyze individual's connections – genetic, spiritual, ethnic, and more – to one another, society, and the times. Course text: "Best American Essays of 2015" by Ariel Levy (editor).

Item: C871 **Fee: \$48**
4 Tues., 10/1-10/22 **10 a.m.-12 p.m.**
Berg, Ellen ● **MAB 109**

The U.S. Economy: Silver Clouds and Gray Linings

Introduction to macroeconomics, including unemployment, inflation, budget deficits, monetary policy, and trade. Learn about the history of the U.S. economy from the creation of the Federal Reserve System to the aftermath of the Great Recession and the macroeconomic policies of the Trump Administration.

Item: C879 **Fee: \$48**
4 Wed., 11/20-12/11 **1-3 p.m.**
Gassler, Scott ● **GWY 352**

Fact and Fiction

This is not your average book discussion group! Participants select their reading choices, present brief reviews, and share appraisals. Select from classic or current authors of any genre. Learn from each other through informal discussion.

Item: C915 **Fee: \$12**
4 Mon., 10/21-11/18 **1-3 p.m.**
Gallery, Jill ● **MAB 108**

No class 11/11
Concurrent with "C961 Our Moon."

Introduction to James Joyce: "Dubliners"

When "Dubliners" was published in 1914, publishers feared readers would be offended by its immorality, not to mention the word "bloody." Examine where obscenity meets art in "Dubliners" and find out what all the bloody fuss is about. Read: First three stories for the first class.

Item: C925 **Fee: \$48**
4 Mon., 11/18-12/9 **10 a.m.-12 p.m.**
Tonkin, Vern ● **MAB 109**

First Novels by Four Noted Western Washington Writers

Tom Robbins, David Guterson, Jamie Ford, and Jim Lynch wrote debut novels which were so popular that they served as springboards to a variety of other well-received novels. Course texts: "Another Roadside Attraction," Robbins; "Snow Falling on Cedars," Guterson; "Hotel on the Corner of Bitter and Sweet," Ford; and "The Highest Tide," Lynch. Read: Robbins for the first class.

Item: C923 **Fee: \$48**
4 Mon., 9/23-10/14 **1-3 p.m.**
McGuire, Wayne ● **MAB 109**

Lyrics of Ancient Greece

Read and discuss works by poets writing at the dawn of lyric poetry in the West -- Sappho, love-poetess of Lesbos; Archilochus, soldier poet of Paros; and Theocritus, inventor of pastoral. These poets invented genres and poetic conventions that have influenced Western literature to the present day. Read: Sappho selection for the first class.

Item: C913 **Fee: \$48**
4 Thurs., 10/17-11/7 **1-3 p.m.**
Taylor, Sean ● **MAB 109**

Rumi: Poet of the Heart

Let the power of Rumi inspire your soul. This 13th century mystical Persian poet's insights into life, joy, loss, freedom, longing, spirit, and imagination still resonate in today's world. As a Sufi, Rumi was the founder of the Whirling Dervishes. Course text: "Rumi: The Big Red Book," translated by Coleman Barks.

Item: C921 **Fee: \$48**
4 Thurs., 10/3-10/24 **10 a.m.-12 p.m.**
Stahl, Robert ● **MAB 109**

Shakespeare's "The Tempest"

Let's read Shakespeare's last play, in which an exiled magician thwarts his political enemies on an enchanted island. We'll consider how the play provides a meditation on voyages of colonization taking place during Shakespeare's day and how Prospero's magic operates as a metaphor for the playwright's art. Read: Through Act 2 for the first class.

Item: C917 **Fee: \$48**
4 Tues., 11/19-12/10 **1-3 p.m.**
Taylor, Sean ● **MAB 109**

The Psalms

People know and love Psalms -- the song book of the Old Testament. It is a book of prayers and stories, of sorrow and joy, of a people from long ago. It is filled with hope, fear, anger, love, and faith. More than 150 songs have been written by many authors over more than 800 years. Discussions include 30 of these beloved songs.

Item: C945 **Fee: \$48**
4 Tues., 10/29-11/19 **10 a.m.-12 p.m.**
Gibson, Dick ● **MAB 109**

What's Love Got to Do With It: The Lais of Marie de France

Let's talk about love, specifically in the 12 short romances that medieval French poet Marie de France wrote for Henry II's court in 12th-century England. Her famous narrative poems move the traditional focus of romance from men's chivalric exploits to women's courtly love concerns, exploring gender roles and identities.

Item: C919 **Fee: \$36**
3 Fri., 9/27-10/11 **10 a.m.-12 p.m.**
Sucich, Angela ● **MAB 109**

INSTRUCTOR SPOTLIGHT
GENE WISEMILLER

Gene Wisemiller worked for the city of Everett Public Works department for 18 years mapping sewer and water lines as well as critical infrastructure.

He also volunteered with the American Red Cross on the "Missing Maps" project to map areas where humanitarian organizations are trying to meet the local needs.

Gene will be teaching "All About Maps: Cavemen to Google."

Birds of the Pacific Northwest

Enhance your ability to identify and understand the common birds of the Pacific Northwest. Explore anatomy, reproduction, food and foraging, and habitats. Learn about backyard birds, owls, raptors, and water birds. For beginning to intermediate-level birders.

Item: C959 **Fee: \$36**
3 Thurs., 11/21-12/12 **10 a.m.-12 p.m.**
Brown, Candy ● **MAB 109**

No class 11/28

Gardening Success and You

Learn ideas, techniques, and solutions you can apply to your particular gardening needs. Topics include: Gardening successfully at any age, selecting plants, using bulbs for year-round colorful gardening, interplanting vegetables and flowers, starting seeds indoors, and growing pollinator-friendly and health-friendly plants.

Item: C891 **Fee: \$36**
3 Wed., 10/30-11/13 **1-3 p.m.**
Resnick, Jerelyn ● **GWY 352**

Concurrent with "C895 Making Medical Decisions."

Geology of National Parks Part 1

There are 59 U.S. national parks, 119 national monuments, and more than 400 other locations, such as National Seashores, that are designated as being worthy of protection and preservation because of the spectacular, and often fragile, geologic features they contain. Discussions include: Grand Canyon, Carlsbad, Rainbow Bridge, Oregon Caves, and many more.

Item: C957 **Fee: \$48**
4 Mon., 9/23-10/14 **10 a.m.-12 p.m.**
Charnley, Donn ● **MAB 109**

Our Moon

Explore the Solar System and its closest companion in the grand celestial dance -- the moon. July 20, 2019 marked the 50th anniversary of the first human landing on the moon, but our fascination with it began long ago. La Luna is the source of Earth's tides and eclipses, and the constantly changing illuminator of the night sky.

Item: C961 **Fee: \$48**
4 Mon., 11/18-12/9 **1-3 p.m.**
Khandro, Linda ● **MAB 109**

Concurrent with "C915 Fact and Fiction."

Water Quality and Aquatic Life in the Puget Sound Region

When the sun is shining, the Puget Sound waters sparkle and look pristine. But, beneath the surface, the water and sediments are polluted from stormwater, agricultural runoff, industrial discharges, and toxic chemicals. Lectures, stories, videos, and discussions will examine the relationship between water quality and aquatic life.

Item: C963 **Fee: \$48**
4 Wed., 10/16-11/6 **10 a.m.-12 p.m.**
Solomon, Fran ● **MAB 109**

Concurrent with "C901 Women's Suffrage Movement in the U.S. (1848-1920)", "C965 Exploring Your Sense of Smell and Fragrance," and "C873 The Roots of Extremism in the Middle East."

Registration starts Aug. 15.

Register online or in person. Go to edcc.edu/cri or see the registration form on page 26.

INSTRUCTOR SPOTLIGHT | JERELYN RESNICK

"I've been retired for a year now, but I love teaching. As a retired person, I wanted to combine my interest and passion for the connections between gardening and being healthy as we age. This class will be less about how to garden and more about the why and the benefits. We'll look to nature to see what it has to offer us and how we can best make use of that to be as healthy as we can."

Favorite thing to grow: Kale with flowers in mixed container beds

Jerelyn Resnick, Ph.D. RN, is a principal lecturer emeritus at the University of Washington-Bothell School of Nursing and Health Studies. She's an avid gardener and also teaches for the Master Gardeners of Snohomish County.

Jerelyn will be teaching "Gardening Success and You."

SCIENCE **CREATIVE RETIREMENT INSTITUTE (CRI)**

Explore Your Sense of Smell and Fragrance

Our noses are amazing molecular detectors, but how much do we really know about our sense of smell? Explore the biology and chemistry behind fragrances and essential oils through lecture and hands-on activities. This class is not suitable for individuals with chemical or fragrance sensitivities.

Item: C965 **Fee: \$24**
2 Wed., 10/23-10/30 **10 a.m.-12 p.m.**
Weeks, Reitha ● **GWY 352**

Concurrent with "C963 Water Quality and Aquatic Life in the Puget Sound Region."

It's Time for Your Vitamins and Minerals

Learn the difference between vitamins and minerals, how much an older adult should consume, and good dietary sources for each nutrient. Consequences of insufficient vitamin and mineral consumption as well as the risks of toxicity from over supplementation will be discussed.

Item: C893 **Fee: \$36**
3 Fri., 11/1-11/15 **1-3 p.m.**
Kemp, Hilary ● **MAB 109**

Exploring Your Wisdom

Discuss the four elements that research has found to be associated with wisdom -- curiosity, love of learning, open-mindedness, and judgment. Brief presentations will jump-start lively discussions of each of the four elements.

Item: C949 **Fee: \$24**
2 Wed., 10/2-10/9 **10 a.m.-12 p.m.**
Tracy, James ● **MAB 109**

Concurrent with "C901 Women's Suffrage Movement in the U.S. (1848-1920)."

The Basics of Neuroscience and Aging

Explore the basics of human brain anatomy with emphasis on some issues of aging such as dementia, addiction, Parkinson's disease, Alzheimer's, multiple sclerosis (MS), and muscular dystrophy (MD). Taught by an experienced gerontological physician who has worked closely with individuals with dementia and other neurological diseases.

Item: C897 **Fee: \$36**
3 Tues., 10/15-10/29 **1-3 p.m.**
Sadowski, Bernard ● **FBC**

Concurrent with "C909 American History - The Electric Era," "C853 iPad for Grownups," and "C927 Opera Transitions of the 20th Century."

Making Medical Decisions

Making personal and family health care decisions is complicated. Learn how to identify the best available evidence and apply it to your personal health care needs. Distinguish professionals from profiteers. Avoid scams. Keep costs, complications, and consequences in context; and effectively communicate with your doctor.

Item: C895 **Fee: \$48**
4 Wed., 10/23-11/13 **1-3 p.m.**
Phillips, William ● **MAB 109**

Concurrent with "C891 Gardening Success and You."

You Kant Be Serious: Ethics and Its Discontents

Would you cut off your leg if it was the only way to save another's life? Would you politically oppress people for a limited time if it would increase the overall well-being of the citizenry? If you answered "yes," you might be a utilitarian. Explore ethical conundrums while assessing philosophers' views as they grapple with intransigent problems in moral and ethical behavior.

Item: C947 **Fee: \$48**
4 Fri., 10/25-11/15 **10 a.m.-12 p.m.**
Paskin, Sorrel ● **MAB 109**

INSTRUCTOR SPOTLIGHT | WILLIAM PHILLIPS

"We're all patients. We're all forced in our life or have the opportunity to make medical decisions about our own care, and we all feel ill prepared to make those choices -- even those of us who have expertise and inside knowledge. As an experienced doctor and an expert on medical evidence and clinical policies, I hope I have something to offer to help people structure and learn how to make their way through big and little medical decisions."

William (Bill) Phillips is a family physician and preventive medicine specialist with decades of practice experience. He is an award-winning teacher, author, researcher, and clinician. He has served on national and international expert panels, using medical evidence to develop clinical guidelines and health care policy. He is an expert on doctor-patient communication and shared decision-making. He earned his MD and MPH degrees at the University of Washington, where he is Professor Emeritus of Family Medicine and past Clinical Professor of Public Health.

Bill will be teaching "Making Medical Decisions."

Location key: ● Edmonds CC Campus ● Fairwinds Brighton Court ● Artworks

EVENT PLANNING

Learn the practical and theoretical aspects of event and meeting management, including best practices in research, design, planning, budgeting, coordination, promotion, risk management, and sustainability of meetings and events. Already an event planner? Refine your skills and elevate your career.

BUSINESS

Today's business environment is competitive, demanding, and ever changing. If your career goal is management — of people, projects, or policies — a degree or certificate will be an asset. Every program is designed to give you the skills that employers value across industries: critical thinking, communication, teamwork, management, and technology.

UNIVERSITY TRANSFER

Completing a transfer program at Edmonds Community College gives you a tremendous advantage as you work toward a bachelor's degree. Some four-year schools, such as the University of Washington, give priority admissions to students with a two-year transfer degree. Edmonds CC offers you several opportunities to move into a bachelor's degree program.
