

54th annual
COMMENCEMENT

2021

edmonds.edu/commencement

EC students present research at national conference

Left to right: Bandhna Bedi, Elizabeth Morales, and Miia Sula

Edmonds College students Bandhna Bedi, Elizabeth Morales, and Miia Sula presented their research on the environmental consequences of the COVID-19 pandemic at a virtual conference in April. The annual Posters on the Hill conference is sponsored by the Council on Undergraduate Research and is usually held on Capitol Hill and allows students to present their work to members of Congress, congressional staff members, and federal government officials.

The EC team's project was one of 60 chosen this year from more than 200 applications across the country. The EC team's project examined how the COVID-19 shutdown affected air pollution in Seattle, Tacoma, Olympia, New York City, and Rochester, New York.

EC Foundation awarded more than \$277K in scholarships

The EC Foundation awarded over \$277,000 in scholarships to 153 students for the 2020-21 academic year. "Thanks to the generous support of our donors, the Foundation is able to provide critical support to students who might not otherwise be able to continue their studies during this time of intense financial hardship," said EC President Dr. Amit B. Singh. "Our donors make it possible for us to fulfill our mission of expanding access to higher education."

EC opens new STEM building, residence hall

In October, EC celebrated the opening of Hazel Miller Hall, a \$54 million building dedicated to Science, Technology, Engineering, and Math; and Nursing to serve our future nursing and STEM students. EC is also one of the country's few community colleges to offer on-campus housing, and opened its second residence hall this fall. Triton Court provides housing for 220 students and is located directly across from the college's main entrance.

Launched new, innovative BAS degree in Application Development

In the fall, we launched the Bachelor of Applied Science degree in Information Technology - Application Development. Graduates of this program will get the skills needed for a variety of high paying careers in technology. They'll be on their way gaining an in-demand, high-wage job in software and systems development or computer programming. Applications are now open for the fall 2021 cohort. Go to edmonds.edu/itad.

Coming soon! Three new BAS degrees

We're excited to announce that EC has been approved by the Washington State Board of Community and Technical Colleges to offer three additional Bachelor of Applied Science degrees in Robotics and Artificial Intelligence; Advanced Manufacturing and Materials Engineering Technology; and Integrated Health Management.

Congratulations to our 2021 Graduates!

Dear Graduate:

Congratulations! Due to your hard work and persistence, you have accomplished a big step toward a brighter future. During this time of upheaval, you have shown extraordinary resolve. You've enriched our classrooms, strengthened our Triton community, and proven yourselves as leaders. On behalf of our Edmonds College Board of Trustees and employees, I wish you success as you continue to pursue excellence in your academic and career goals.

I also encourage you to continue to use campus resources such as the Career Action Center. Their services may prove especially useful with online job listings, resume critiques, mock interviews, and assistance with finding an internship. Find out more at edmonds.edu/careeractioncenter.

Please keep in touch. We want to hear about your future success. You can stay connected in numerous ways:

- Connect with us on LinkedIn and Facebook
- Follow us on Twitter and Instagram
- Share your journey at edmonds.edu/yourstory
- Visit edmonds.edu/news for up-to-date college news and events.

Join the Edmonds College Alumni Association to stay connected to the college and your fellow alumni, get discounts at the bookstore, and attend alumni networking events. Learn more at edmonds.edu/foundation.

I trust that during your time at Edmonds College you've developed an appreciation for the value of lifelong learning. Down the road, you may decide to add more job skills, change careers, or develop a personal interest. We'll be here, and I hope that you'll consider returning so we can help you reach your next goals. Again, congratulations and best wishes as you take your next steps.

Sincerely,

Dr. Amit B. Singh
Edmonds College President

Honors List

Students who wear a gold honor cord have demonstrated outstanding academic achievement by maintaining at least a 3.8 cumulative grade point average in 100-level classes or higher (up until spring quarter) while earning a or certificate at Edmonds College.

Members of Phi Theta Kappa, recognized as the official honor society for community colleges by the American Association of Community Colleges, may wear a gold tassel or a gold stole, indicating they have at least a 3.5 grade point average.

Special Recognition

Students who wear a gold honor cord have demonstrated outstanding academic achievement by maintaining at least a 3.8 cumulative grade point average in 100-level classes or higher (up until spring quarter) while earning a or certificate at Edmonds College.

Members of Phi Theta Kappa, recognized as the official honor society for community colleges by the American Association of Community Colleges, may wear a gold tassel or a gold stole, indicating they have at least a 3.5 grade point average.

Additional Commencement Ornamentation

College departments, programs, or clubs may develop and request approval for a standard recognition symbol or ornament (e.g., pin, tassel, stole) that graduates may wear on their cap or gown during the commencement ceremony.

Graduates who are members of the college's veterans club, the Edmonds College Student Veterans Association, will be wearing red, white, and blue cords.

Academic Dress

The academic dress worn by the faculty originates from the Middle Ages, when faculty and students wore caps and gowns to stay warm in cold buildings. The distinctive dress, worn daily in American universities until after the Civil War, served to set the scholars apart from fellow citizens and led to the phrase "town and gown." Such regalia is still worn today by faculty and students in some European universities.

The type of gown and hood distinguishes the wearer by level, academic major, and college or university. The master's gown is made with long, closed sleeves. The doctoral gown has longer sleeves than the master's gown, is faced with black velvet from the hem to the neck and back, and contains velvet chevrons on the sleeves.

The doctoral hood is longer than the master's hood. The colors on the inside of a hood relate to the college or university. For example, the University of Washington's colors are purple and gold and Washington State University's colors are crimson and silver. The color of the velvet on the hood depicts the academic specialization as follows:

- Brown – Architecture and Fine Arts
- Citron Yellow – Social Work
- Dark Blue – Philosophy
- Green – Medicine
- Lemon Yellow – Library Service
- Light Blue – Education
- Light Brown – Business
- Lilac – Dentistry
- Orange – Pharmacy
- Peacock Blue – International Affairs
- Pink – Music
- Purple – Law
- Scarlet – Theology
- White – Arts and Letters
- Yellow – Science

Turning the Tassel

Turning the tassel is the last step in a graduation ceremony. Graduates turn the tassel, fastened to the center of the mortarboard, from right to left to signify their new status.
